THE FIRST YEAR IS A BIG DEAL

Results from the Your First College Year Survey (YFCY) offer a window into the first-year experience, providing important information on your students':

- Adjustment to college
- Academic outcomes and experiences
- Co-curricular experiences
- Satisfaction
- Overall growth

Table of Contents

Demographics

Race/Ethnicity and Sex
Sexual Orientation and Housing Type
Financing College

Adjustment to College

Academic Adjustment
Navigational Action
Sense of Belonging
Health and Wellness

Academic Outcomes and Experiences

Academic Self-Concept

Overall Satisfaction

A Note about CIRP Constructs

We use the CIRP Constructs throughout this PowerPoint to help summarize important information about your students from the YFCY.

Constructs

Constructs statistically aggregate the results from CIRP questions that tap into key aspects of the college experience. They focus on student traits and institutional practices contributing to students' academic and social development.

Longitudinal Constructs

Constructs that are included in the CIRP TFS and YFCY that measure change in your student population over time.

Demographics

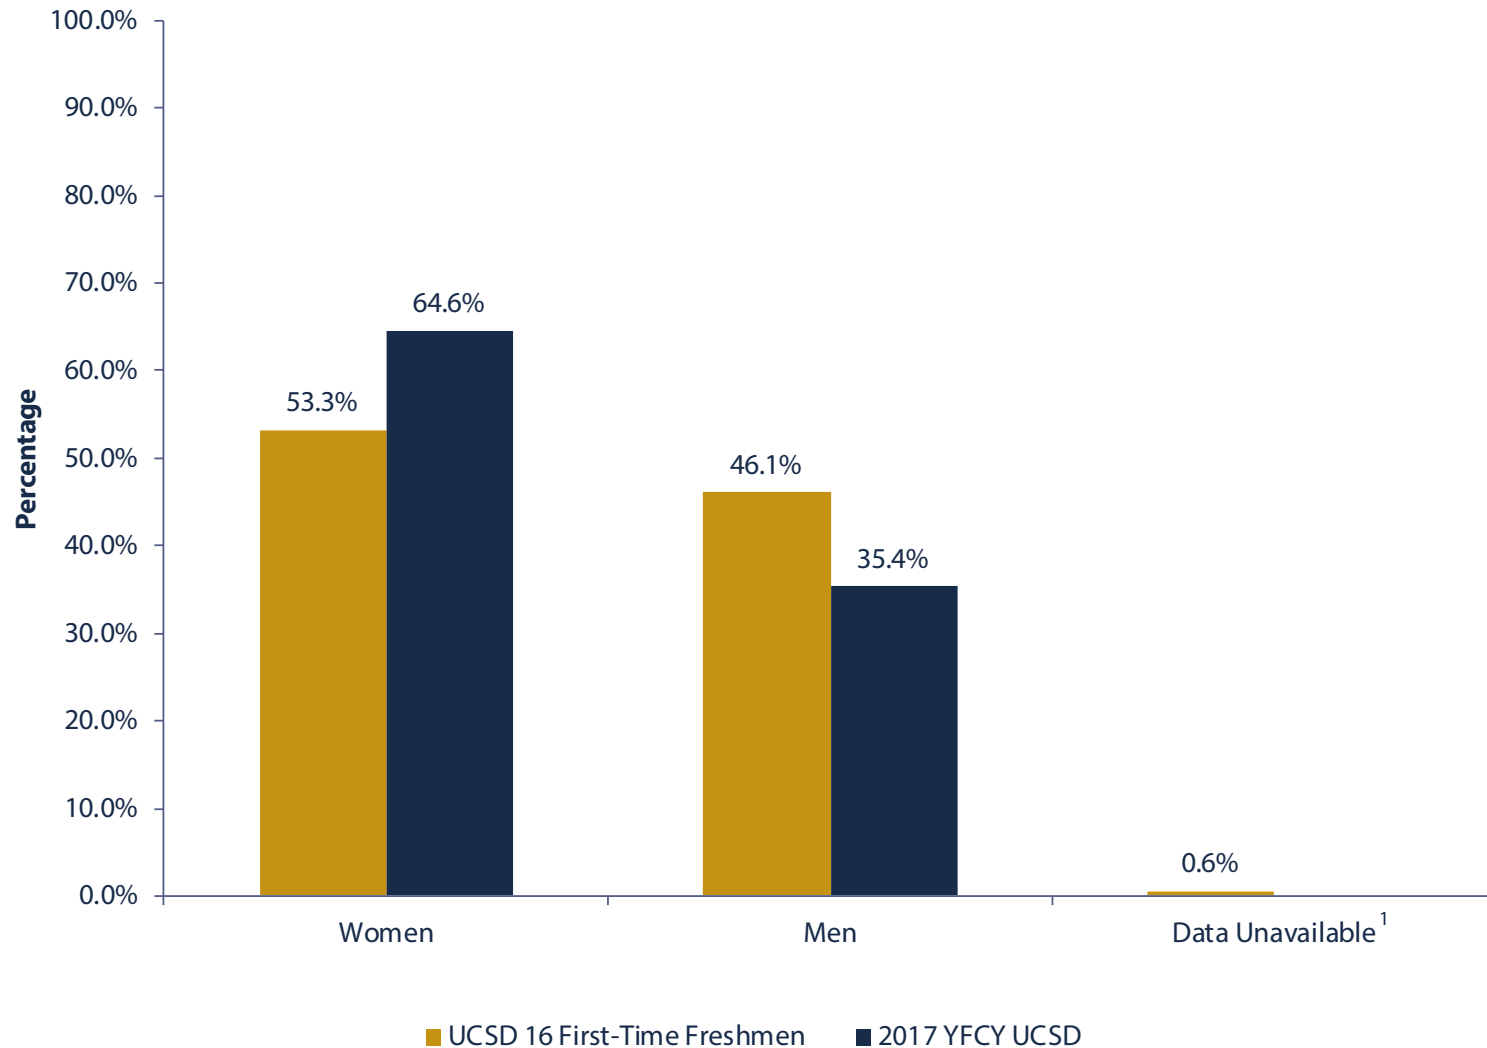

Sex

Race/Ethnicity

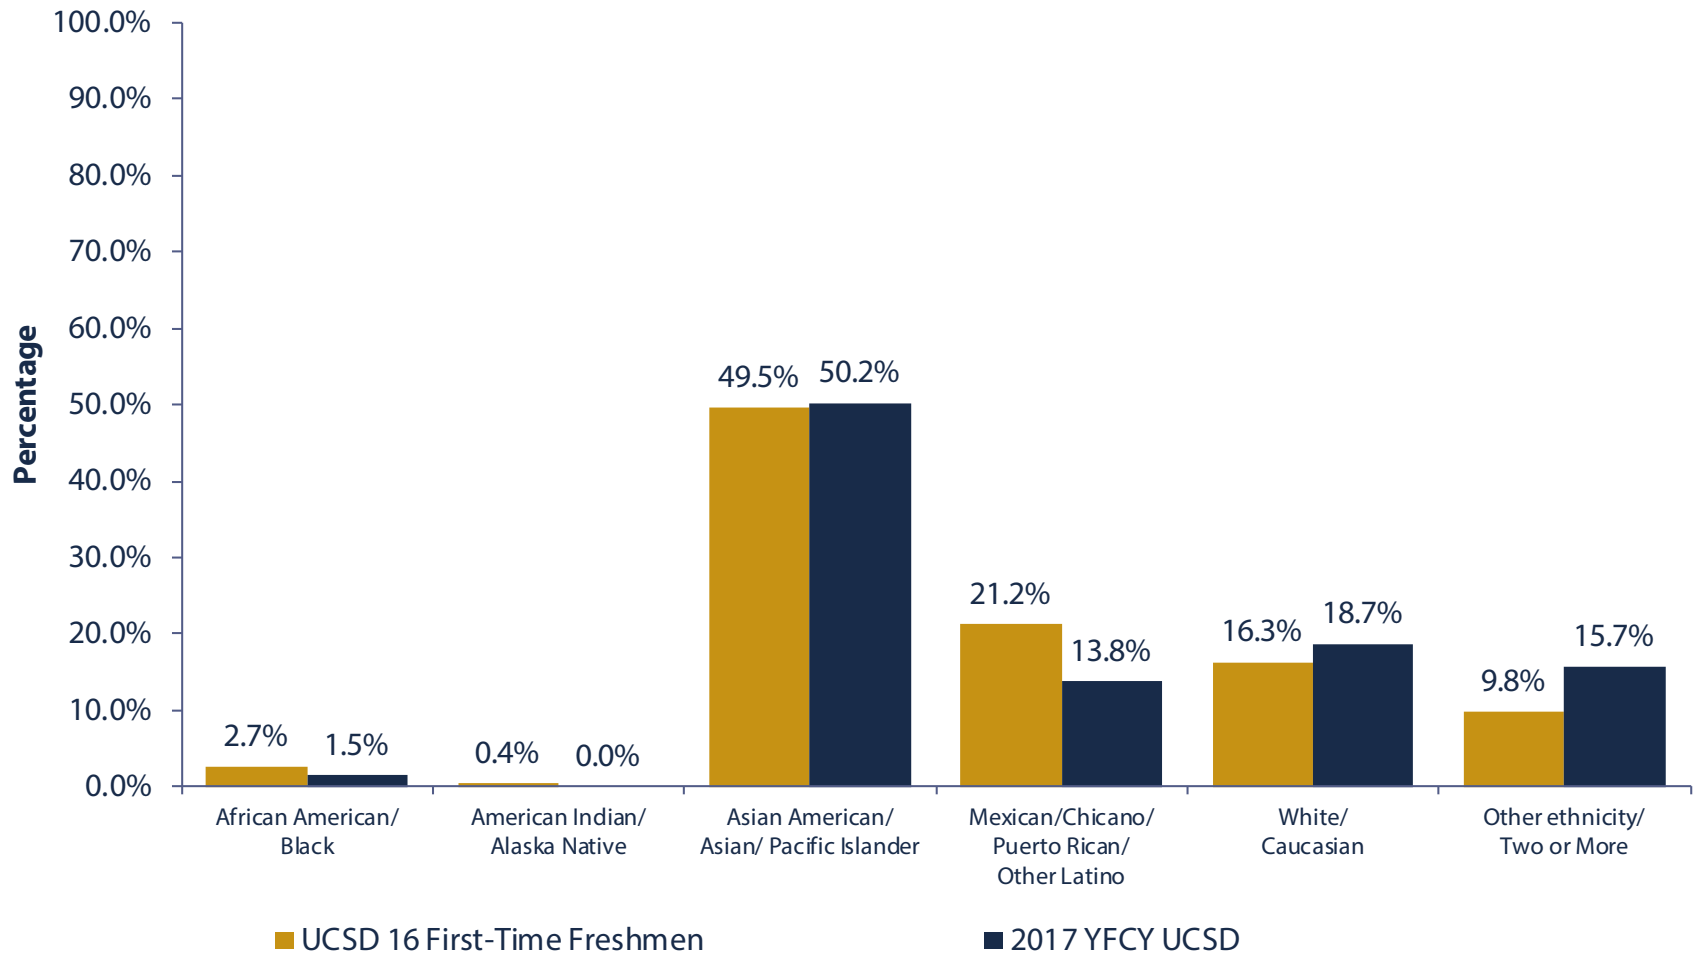

Demographics - Gender

¹ Students who report gender identities as female or trans-female are reported here as women; students who report gender identities as male or trans-male are reported as men. Students who report gender identities as genderqueer/gender non-conforming or different identity are reported according to sex assigned at birth: females reported as women; males reported as men. For more information, see <https://lgbt.ucsd.edu/education/FAQs.html>.

Demographics - Ethnicity

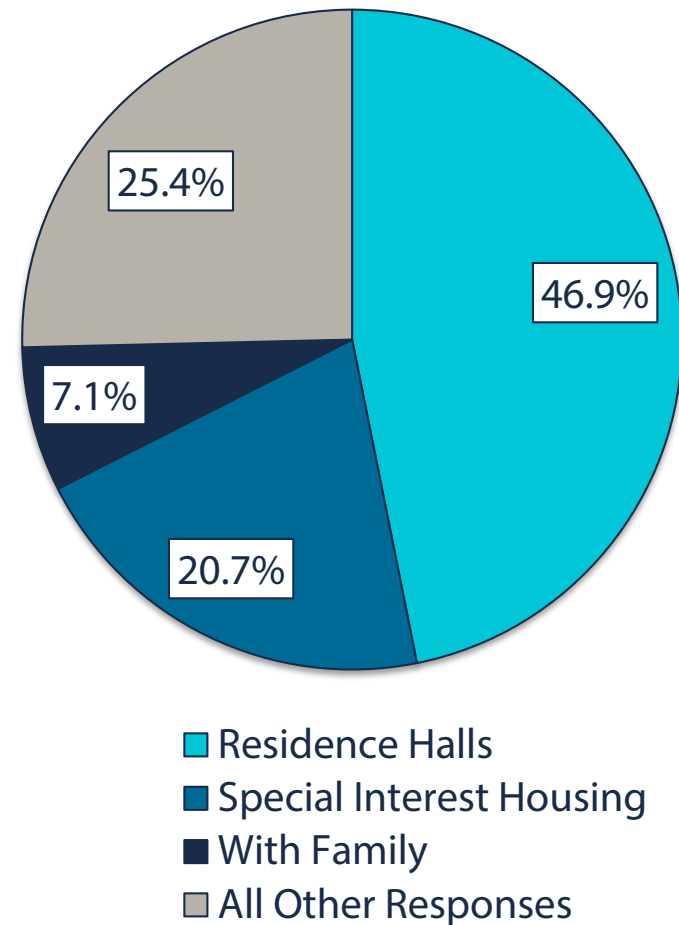

Demographics

Sexual Orientation

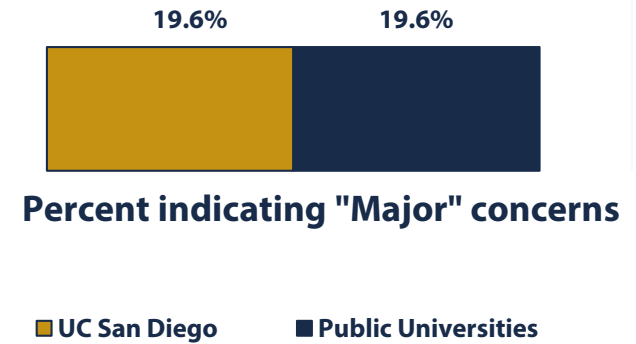

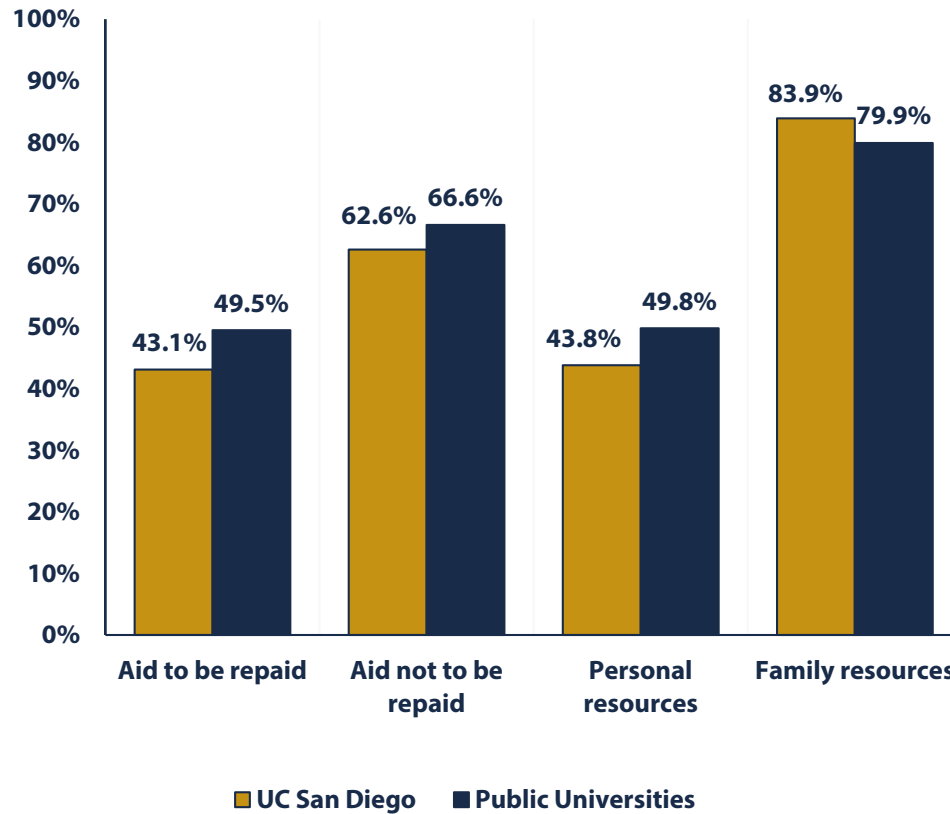

Housing

Financing College

The percentage of students with at least some funds from these various sources.

Do you have any concern about your ability to finance your college education?

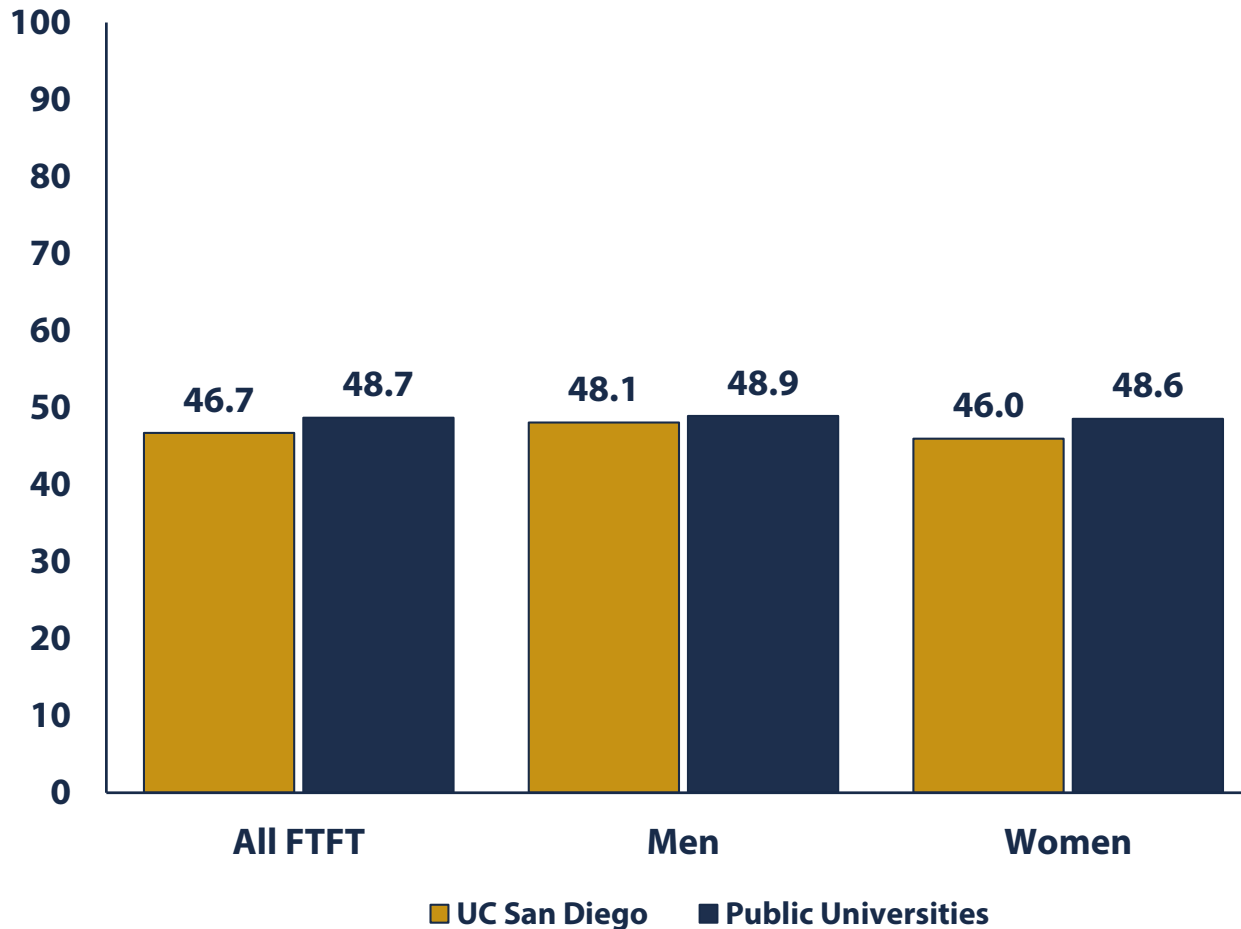

Adjustment to College

Students' ability to adjust academically and socially plays a large role in student success, retention, and satisfaction.

Academic Adjustment

Academic Adjustment measures the ease with which students adjust to the academic demands of college.

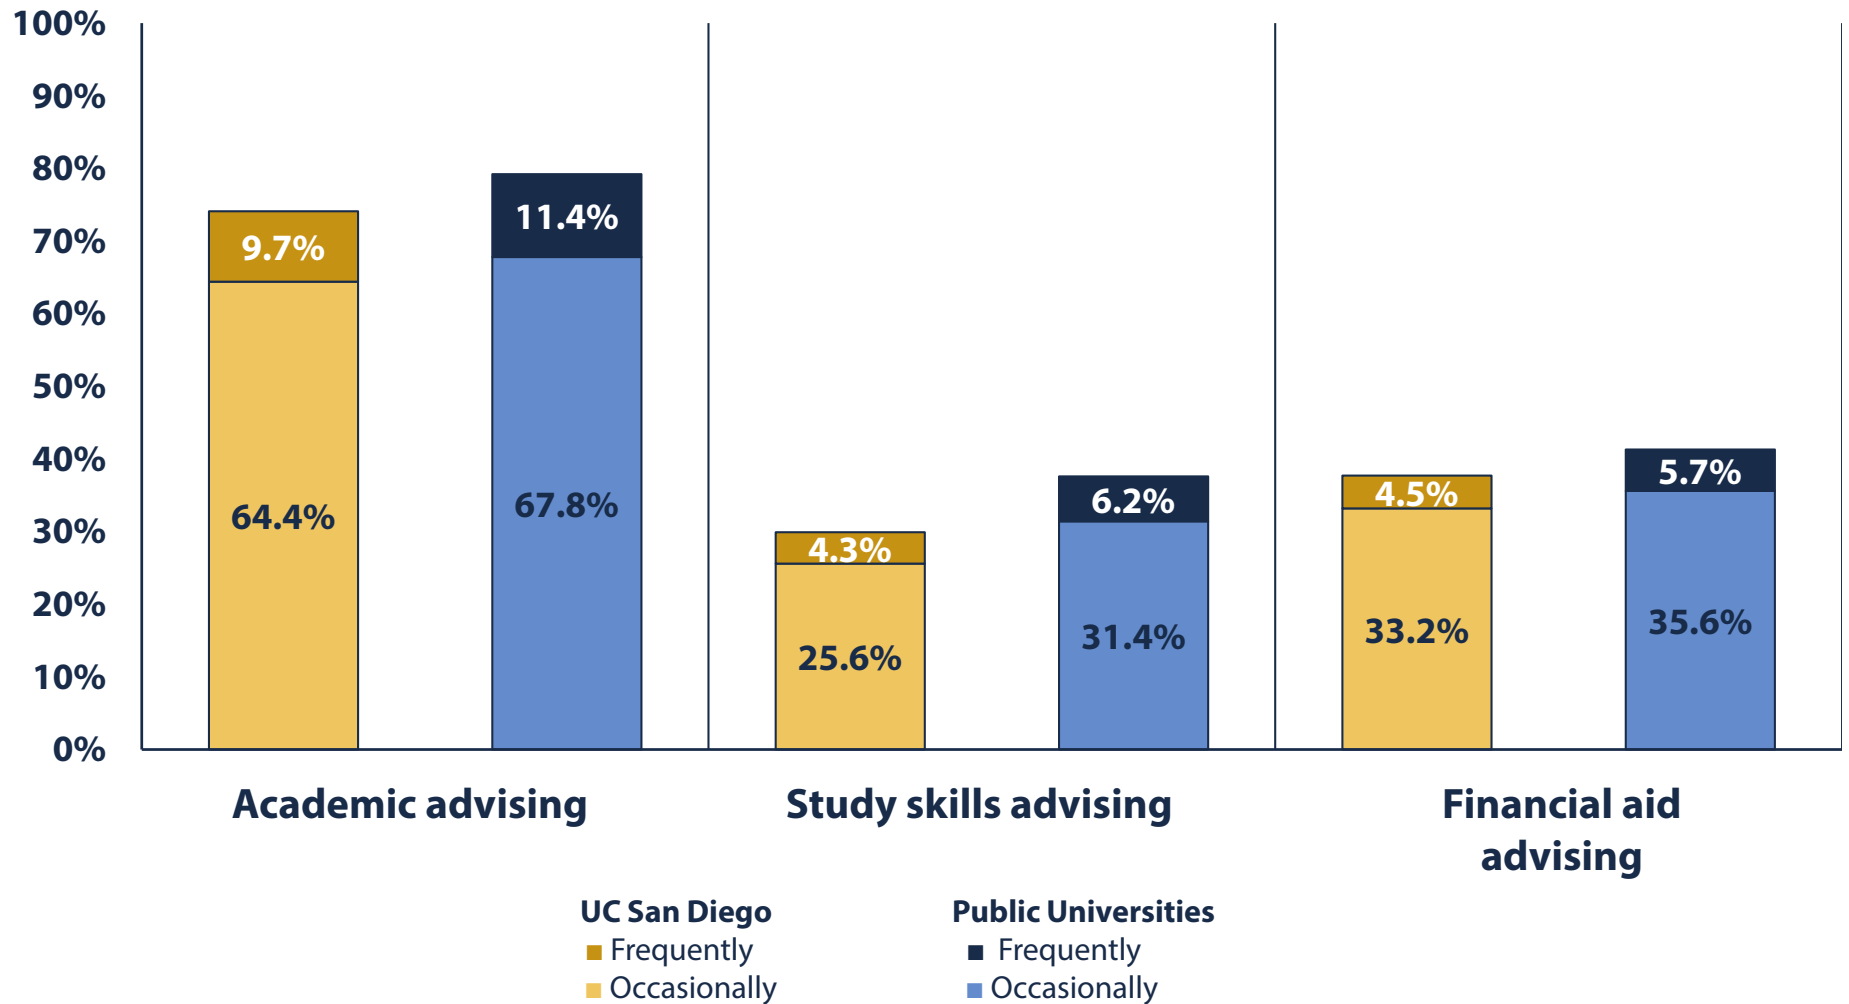

Construct Items

- Adjust to the academic demands of college
- Develop effective study skills
- Manage your time effectively
- Understand what your professors expect of you academically

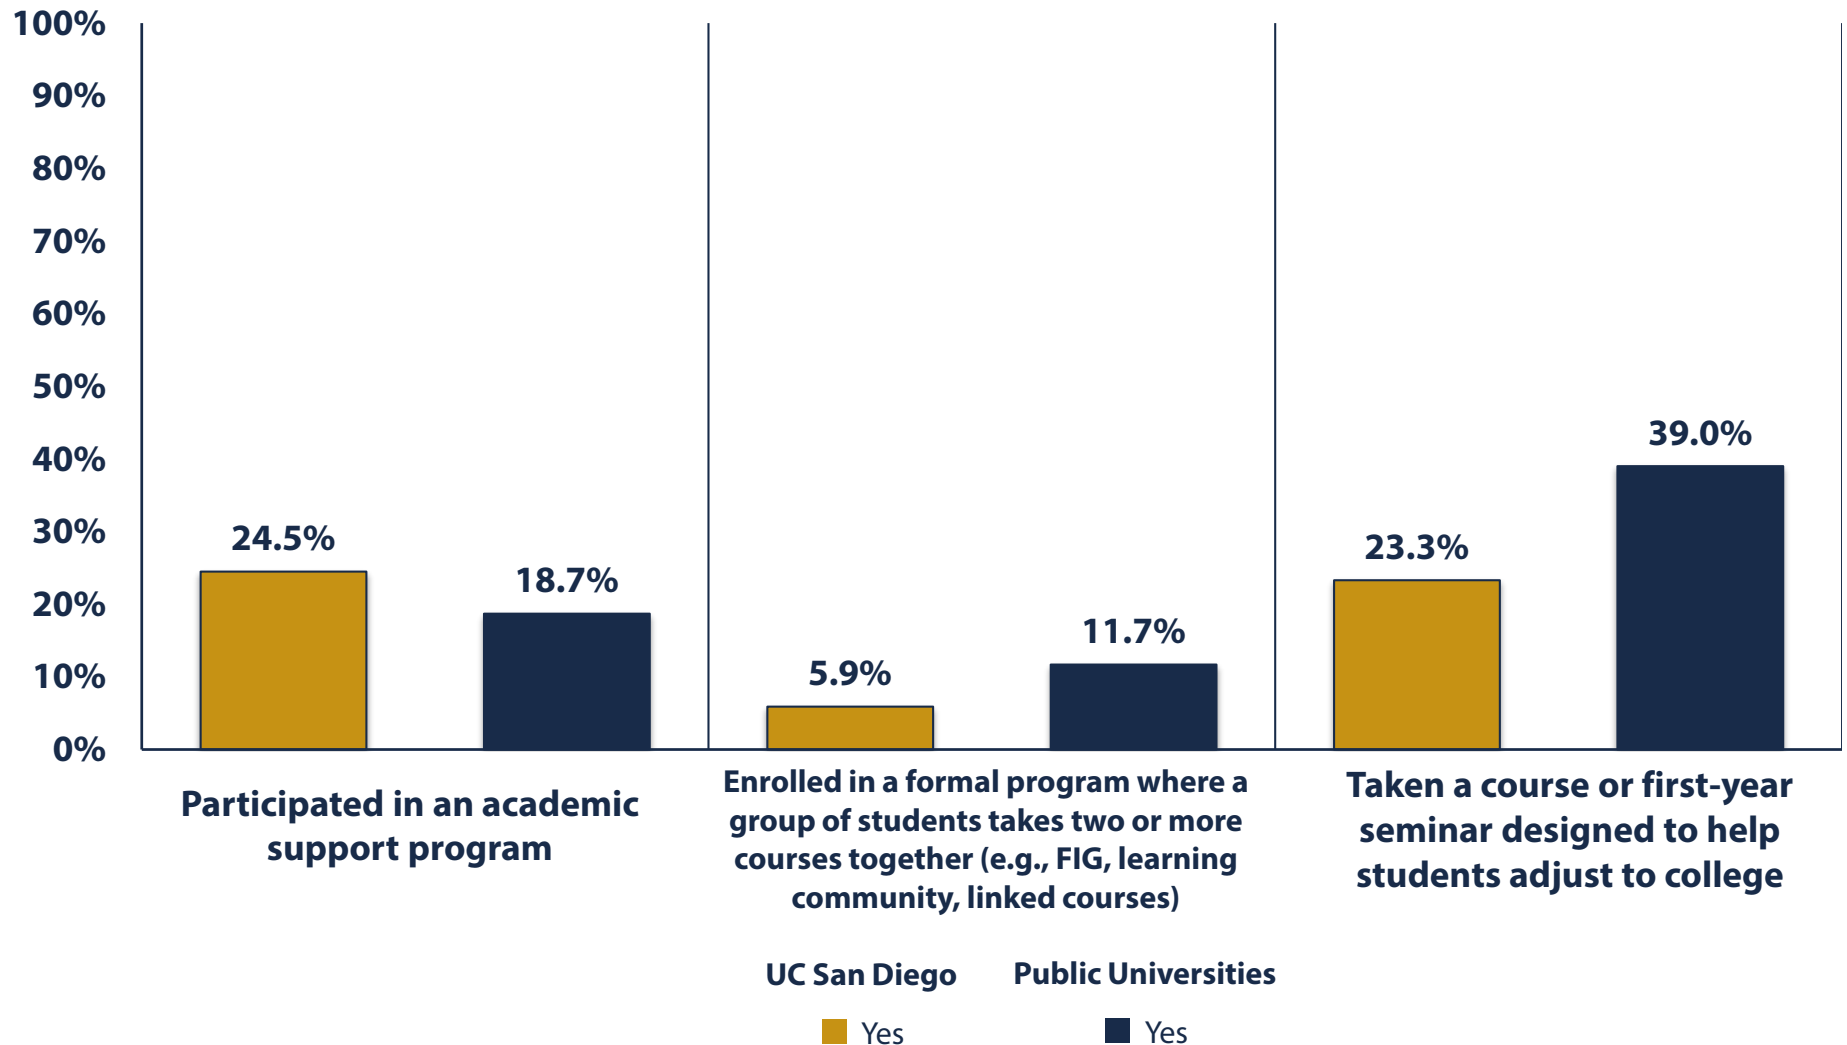

Navigational Action

These items illustrate how often students participated in institutional programs or engaged in activities that would help them successfully traverse the institution.

Navigational Action

These items illustrate how often students participated in institutional programs or engaged in activities that would help them successfully traverse the institution.

Sense of Belonging

The campus community is a powerful source of influence on students' development. *Sense of Belonging* measures the extent to which students feel a sense of academic and social integration on campus.

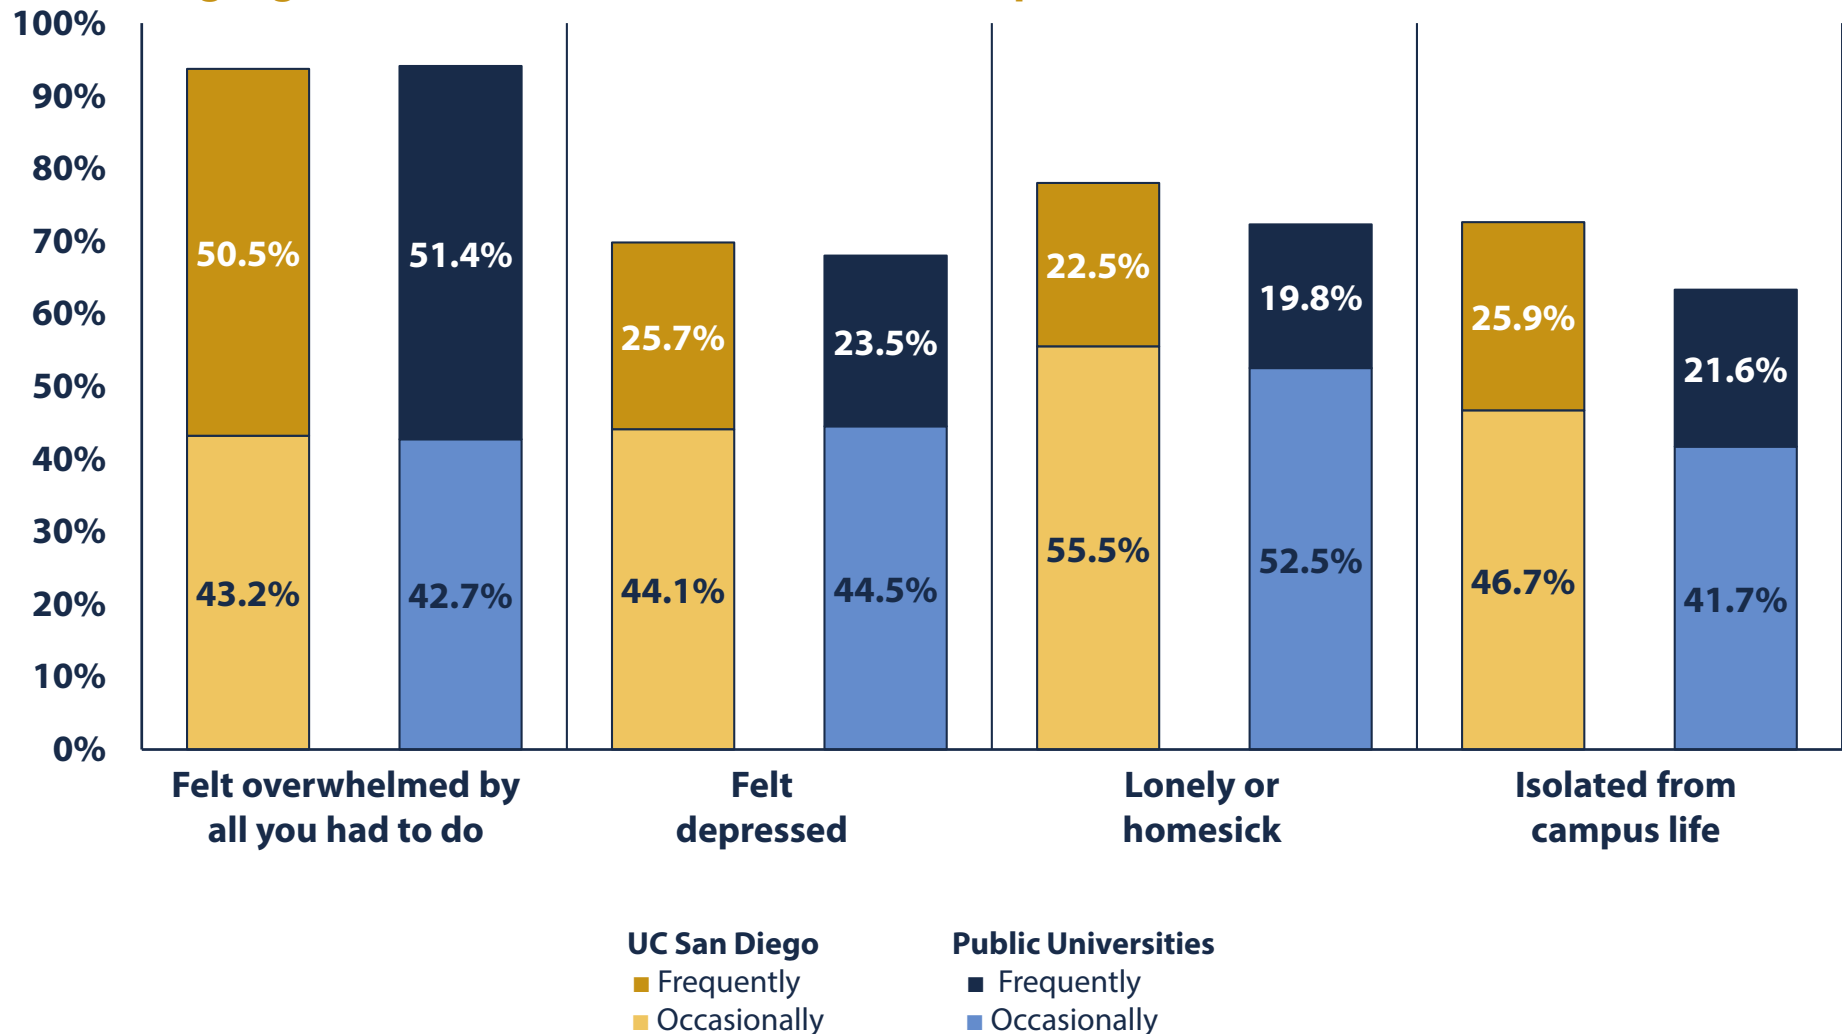

Construct Items

- I feel I am a member of this college
- I feel a sense of belonging to this campus
- I see myself as part of the campus community
- If asked, I would recommend this college to others

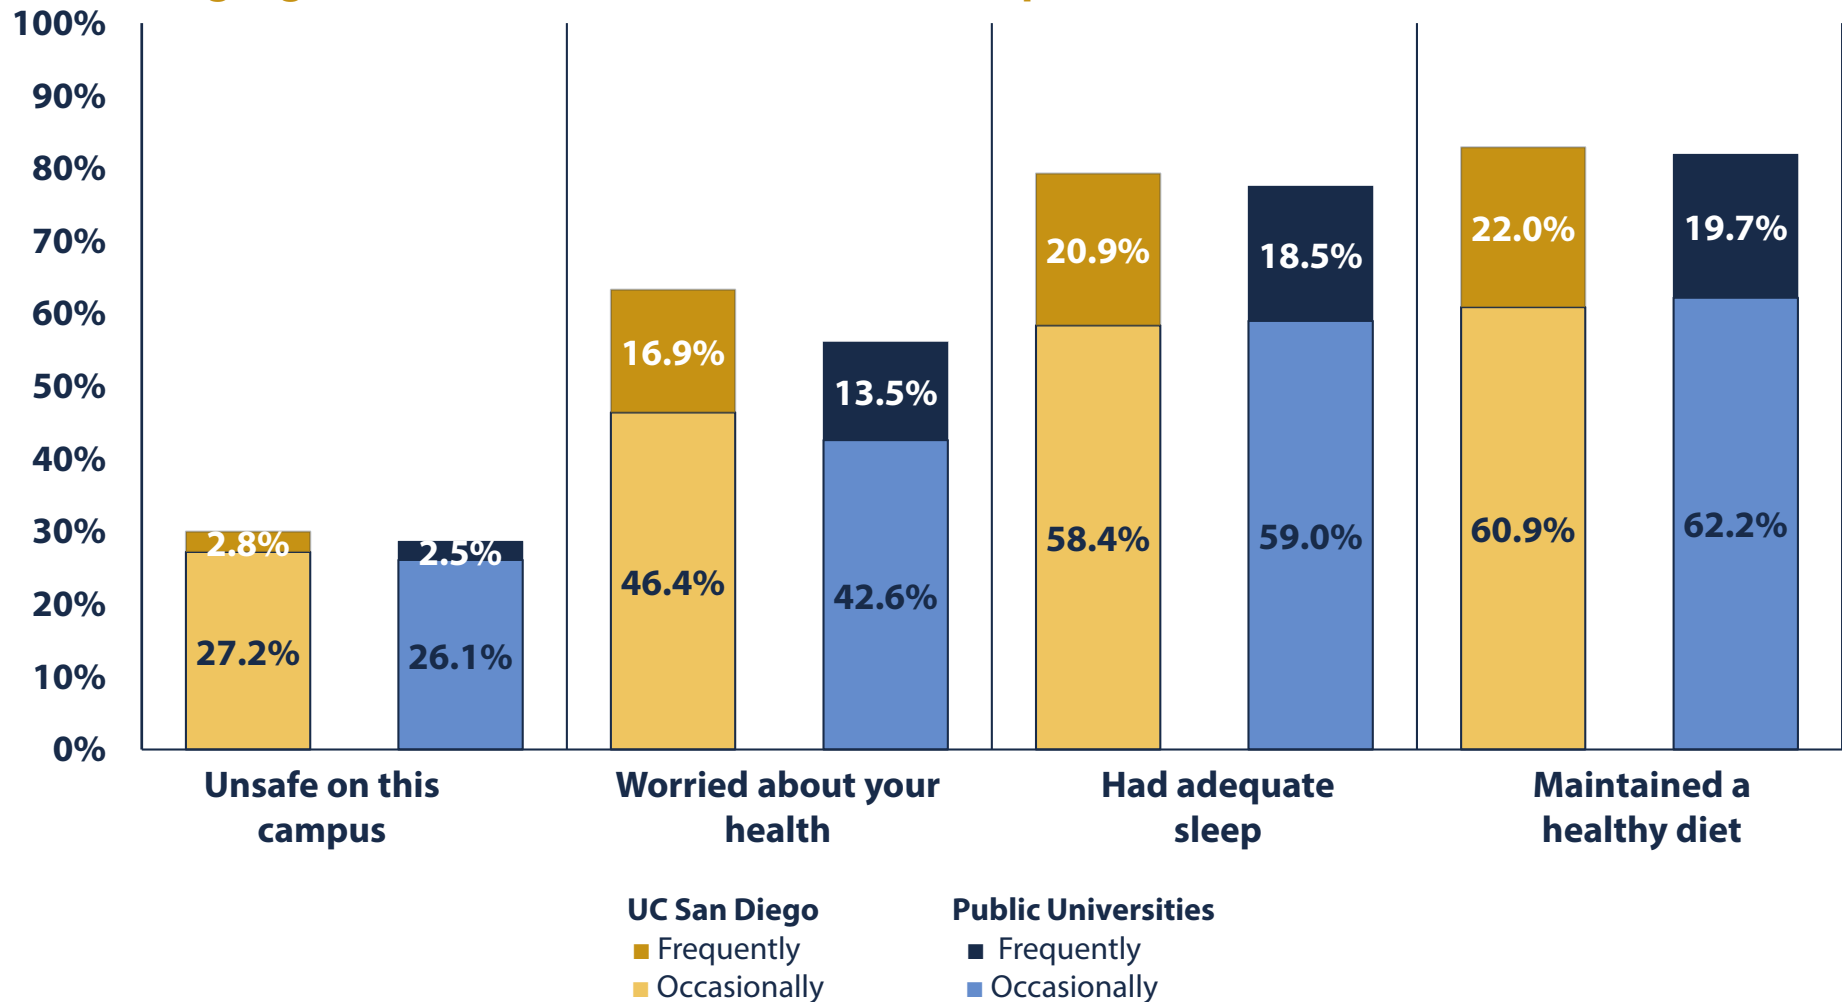

Health and Wellness

Students' physical and emotional well-being can affect many important aspects of the student experience including academic performance and persistence. These items gauge student behaviors, attitudes, and experiences related to health and wellness.

Health and Wellness

Students' physical and emotional well-being can affect many important aspects of the student experience including academic performance and persistence. These items gauge student behaviors, attitudes, and experiences related to health and wellness.

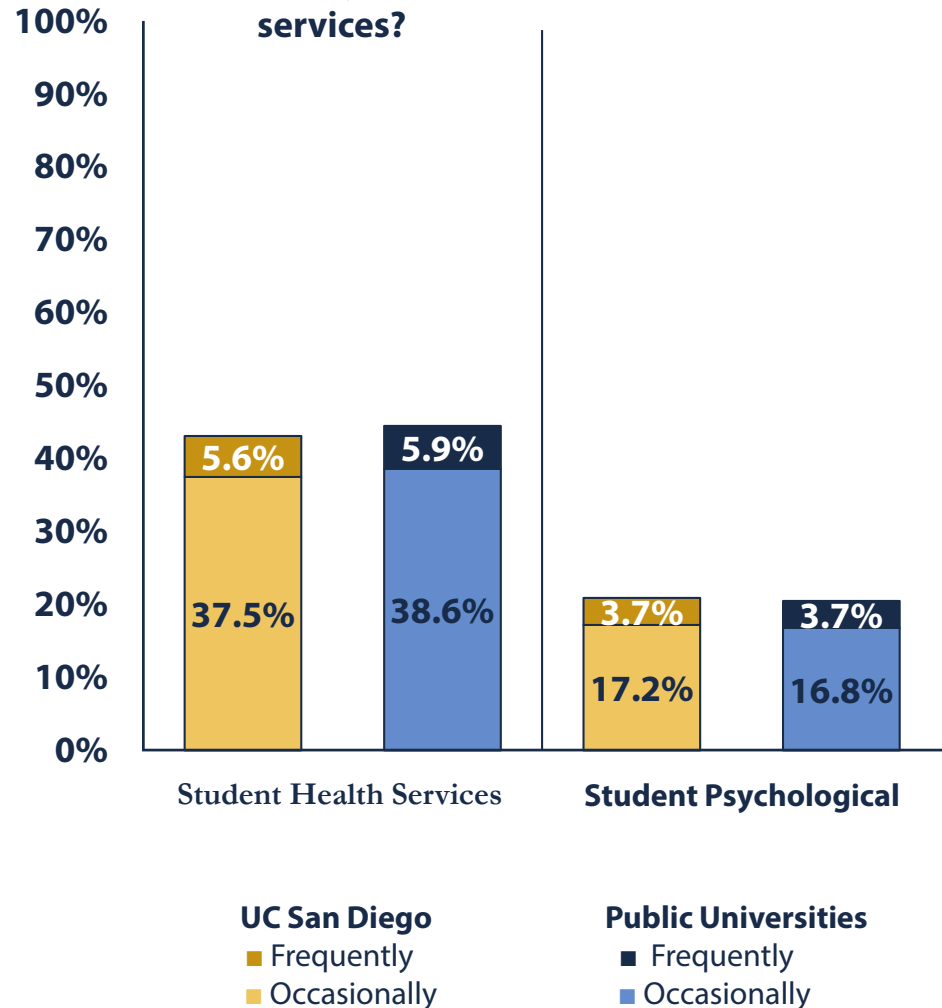

Health and Wellness

Since entering this college, have you sought personal counseling?

Since entering college, how often have you utilized the following services?

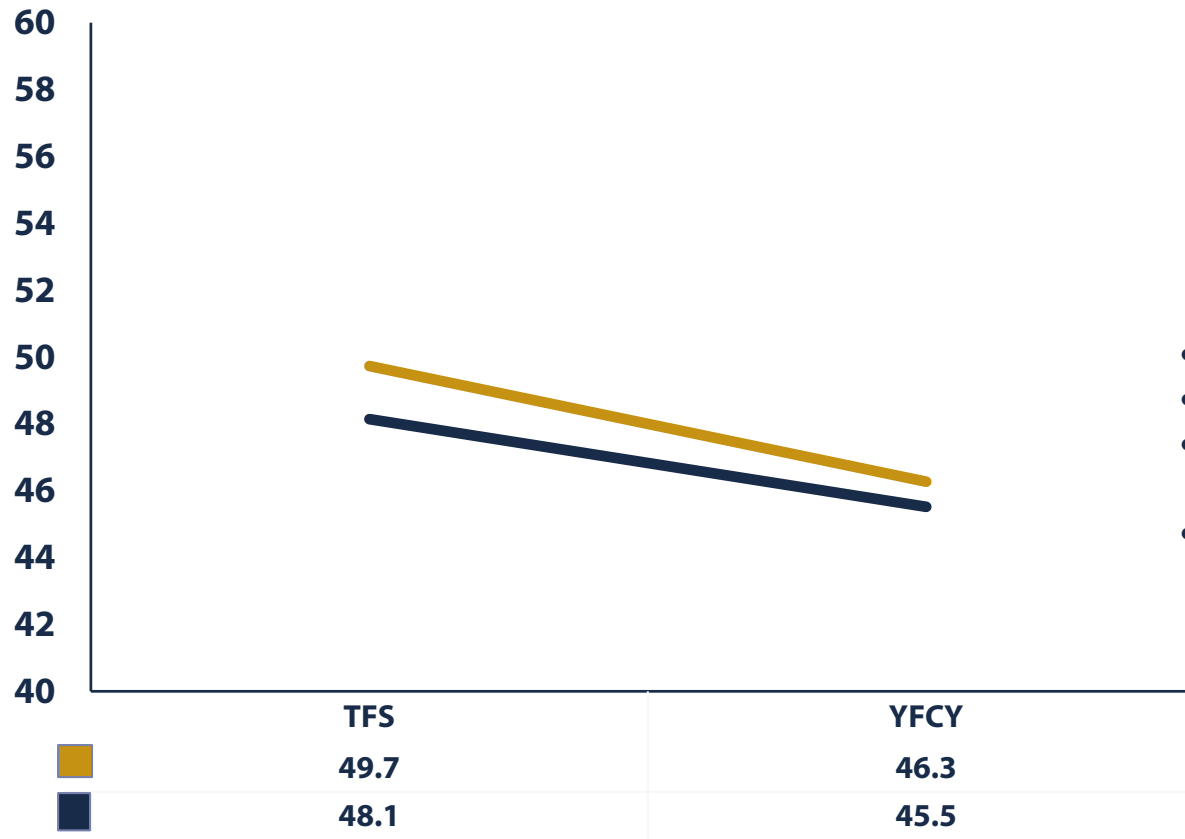

Academic Outcomes and Experiences

Students develop skills, knowledge, and abilities through their experiences both in and out of the classroom.

Academic Self-Concept

Academic Self-Concept is a unified measure of students' beliefs about their abilities and confidence in academic environments.

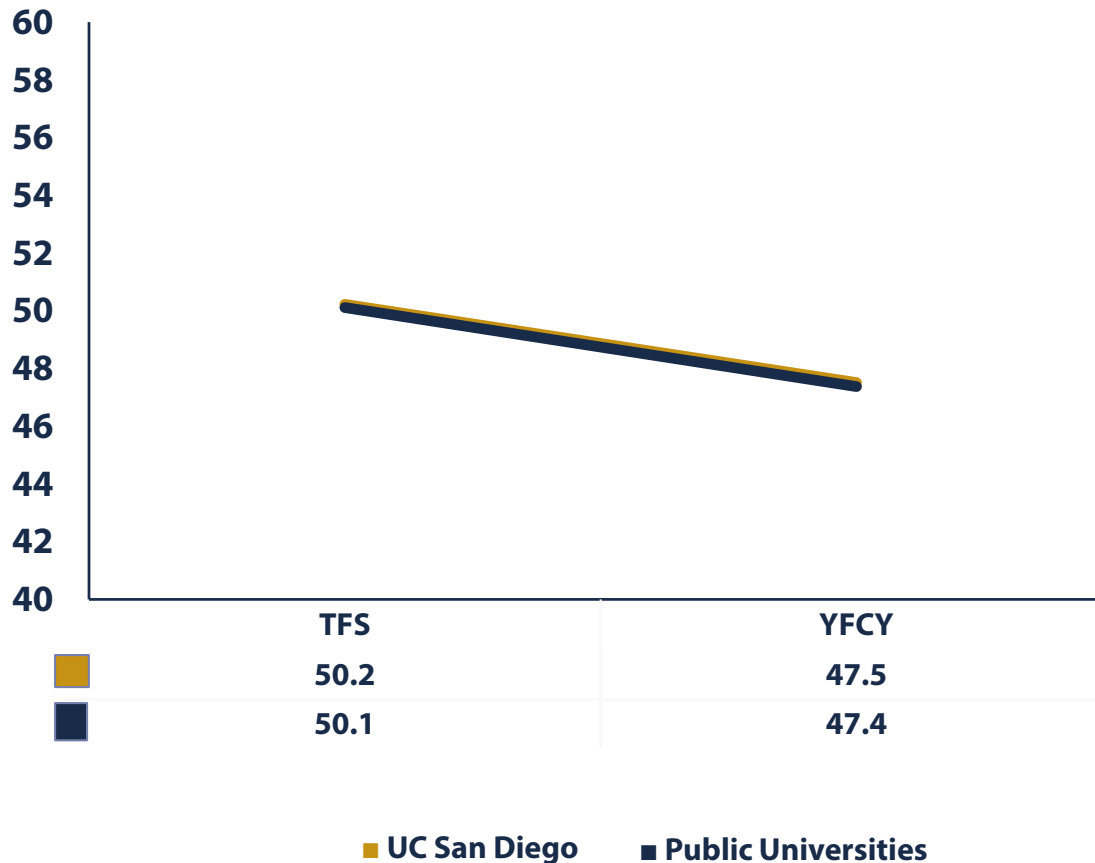

Construct Items

- Self-rated academic ability
- Self-rated mathematical ability
- Self-rated self-confidence (intellectual)
- Self-rated drive to achieve

■ UC San Diego ■ Public Universities

Habits of Mind is a unified measure of the behaviors and traits associated with academic success. These learning behaviors are seen as the foundation for lifelong learning.

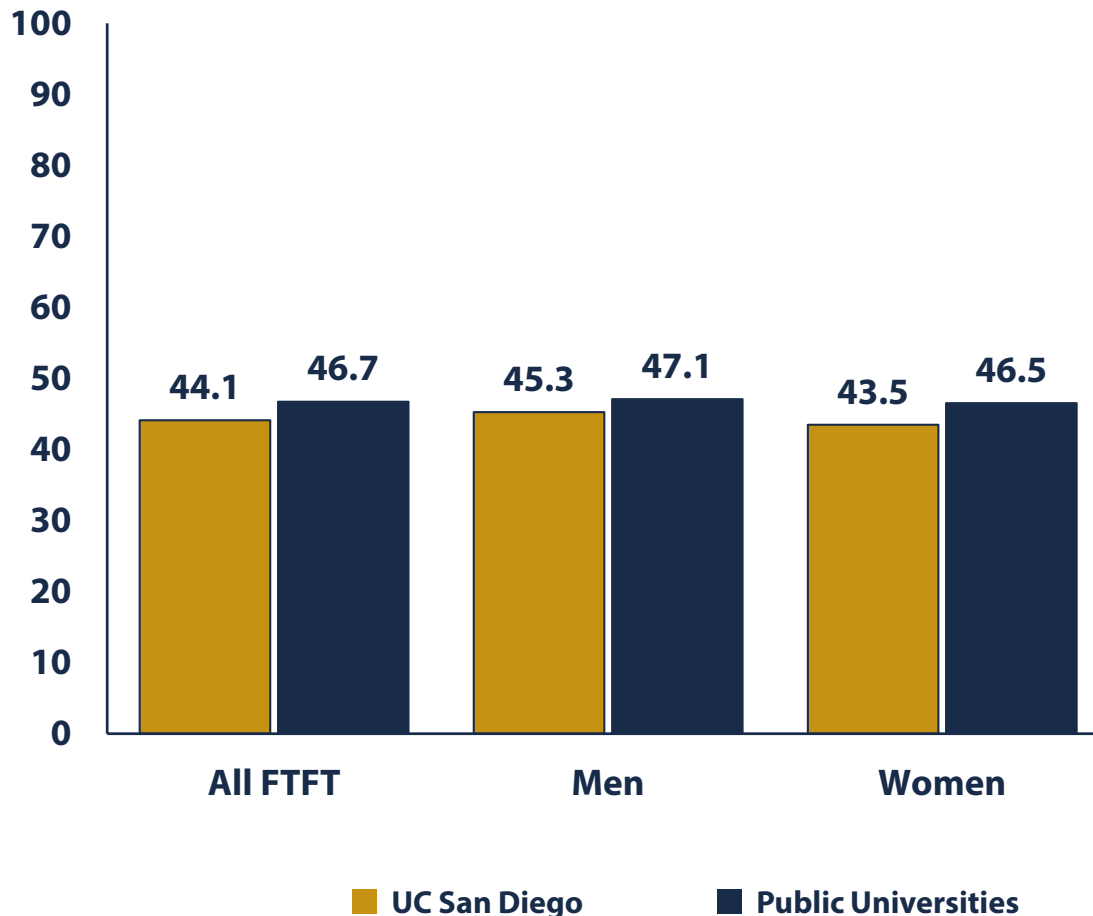

Construct Items

- Support your opinion with logical argument
- Seek solutions to problems and explain them to others
- Seek alternative solutions to a problem
- Evaluate the quality or reliability of information you received
- Ask questions in class
- Take a risk because you felt you had more to gain
- Explore topics on your own, even though it was not required for a class
- Accept mistakes as part of the learning process
- Revise your papers to improve your writing
- Look up scientific research articles and resources

Faculty Interaction

Faculty Interaction: Contact and Communication measures the amount and type of interactions students have with faculty that are appropriate for the first year of college, as well as satisfaction with these issues.

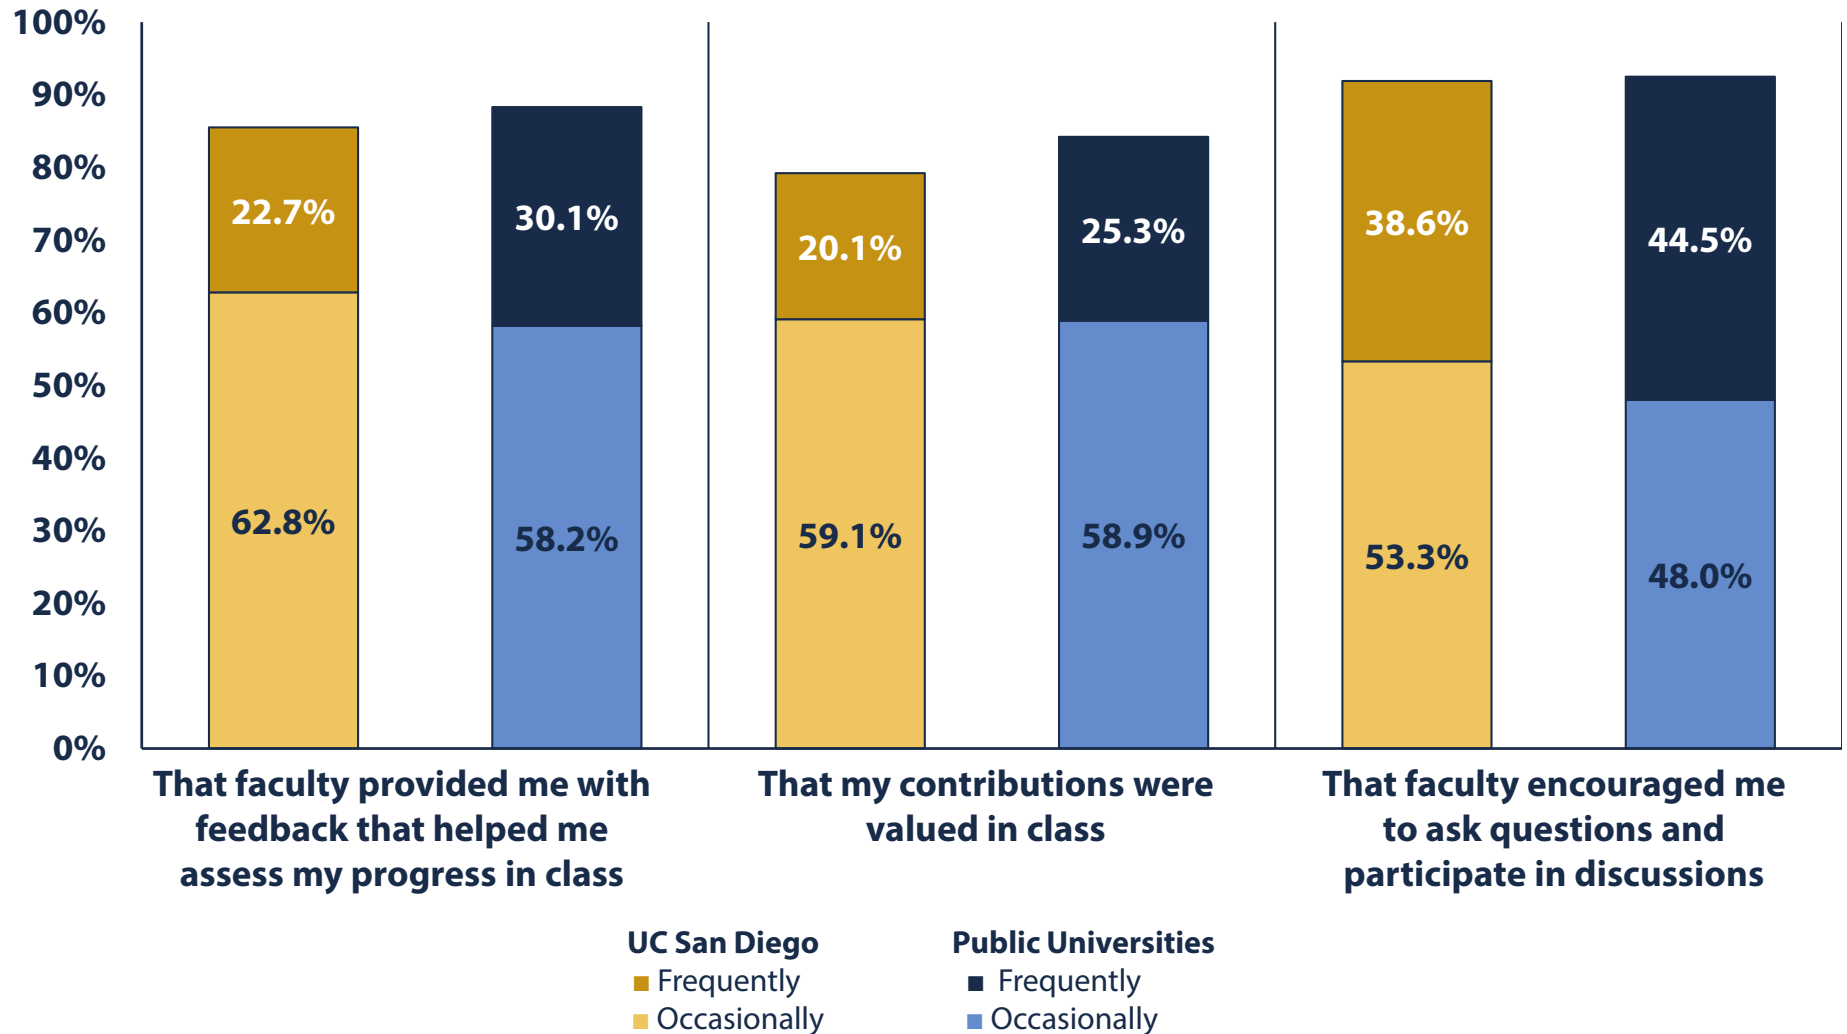

Construct Items

- Communicated regularly with your professors
- Asked a professor for advice after class
- Amount of contact with faculty
- Faculty during office hours
- Faculty outside of class or office hours

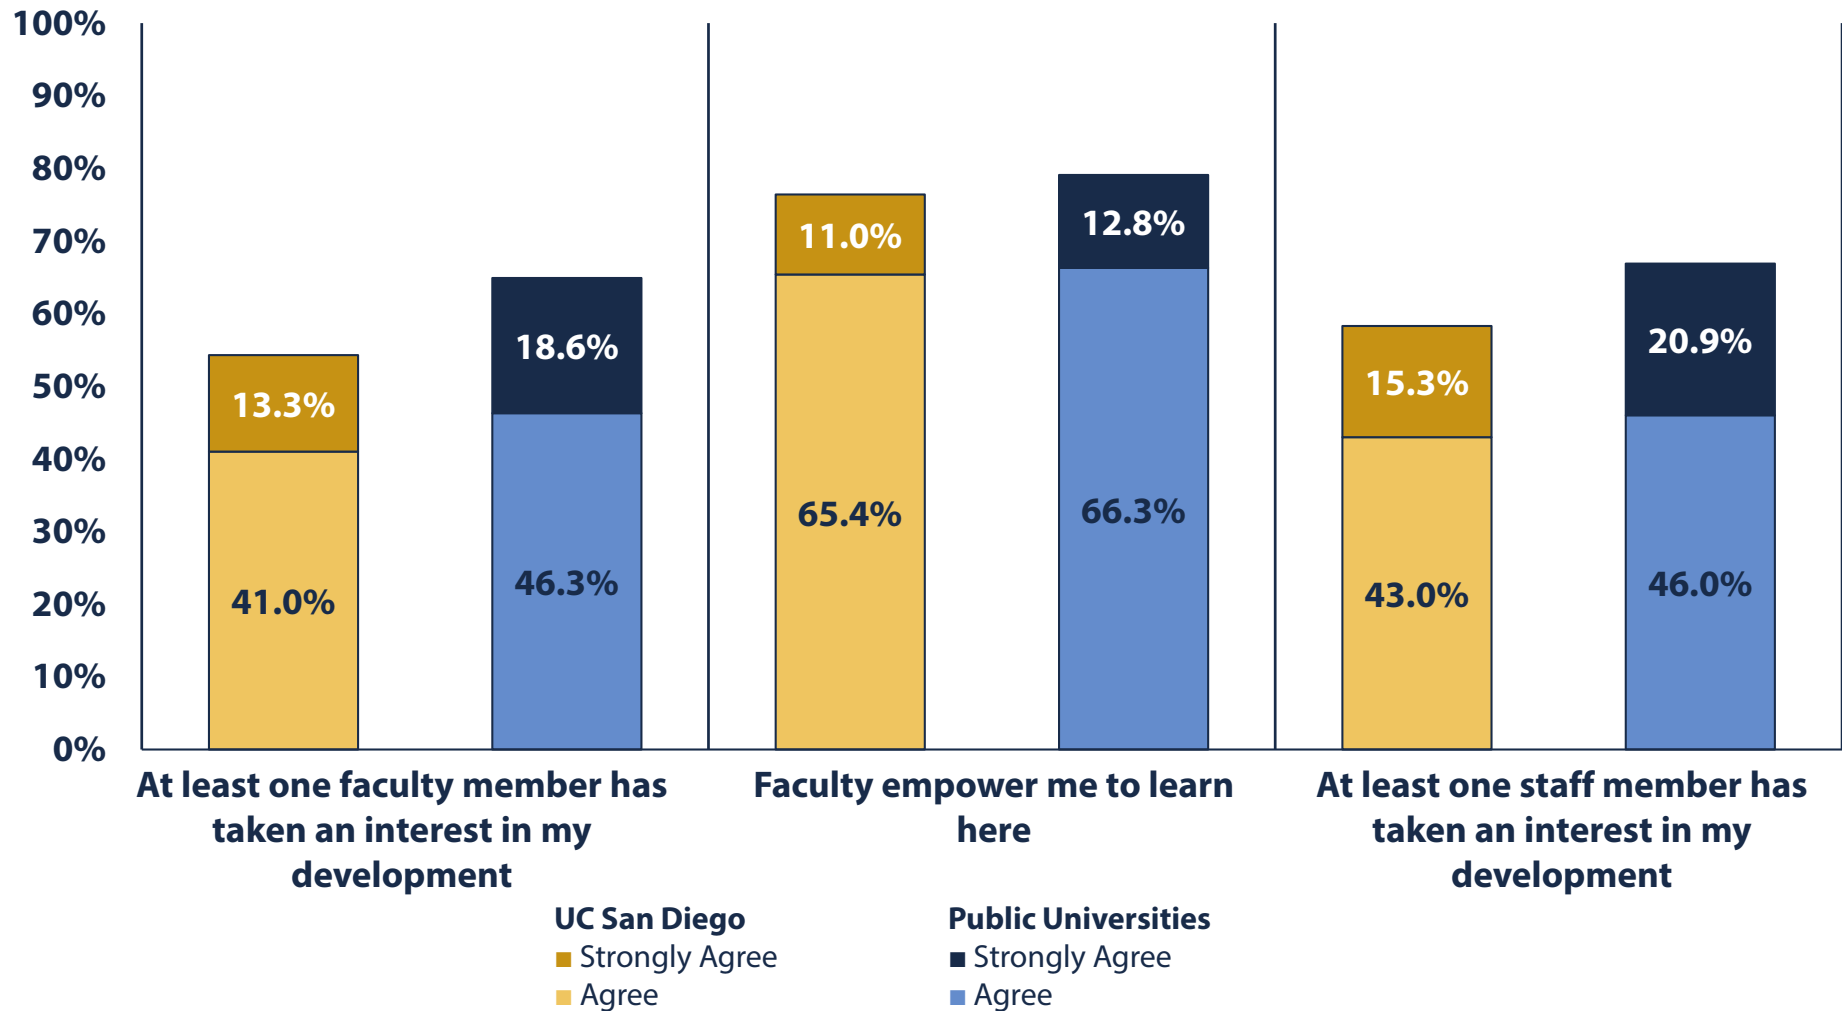

Academic Validation

Faculty interactions in the classroom can foster students' academic development. These items measure the extent to which students' view of faculty actions in class reflects concern for their academic success.

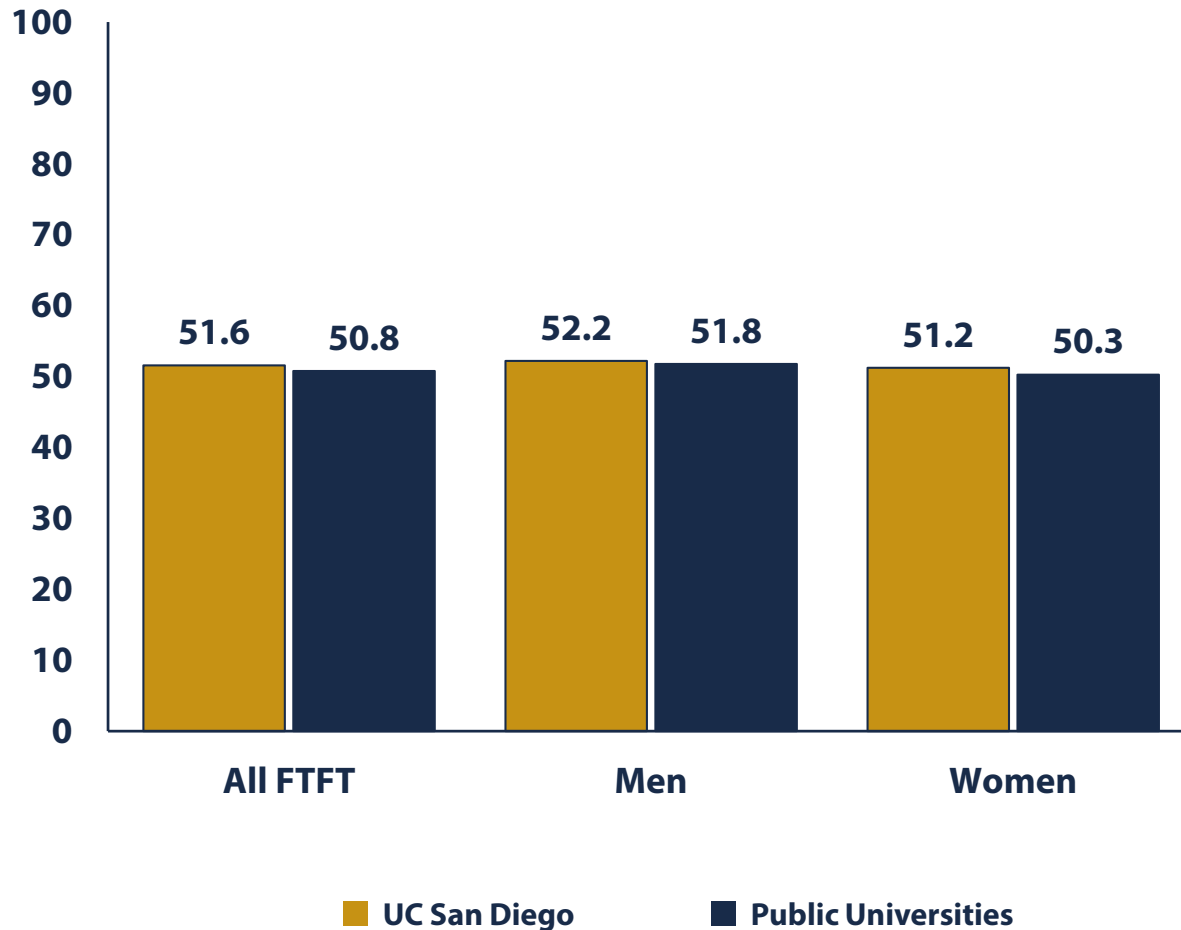

General Interpersonal Validation

These items measure the extent to which students believe faculty and staff provide attention to their development.

Academic Disengagement

Academic Disengagement measures the extent to which students engage in behaviors that are inconsistent with academic success.

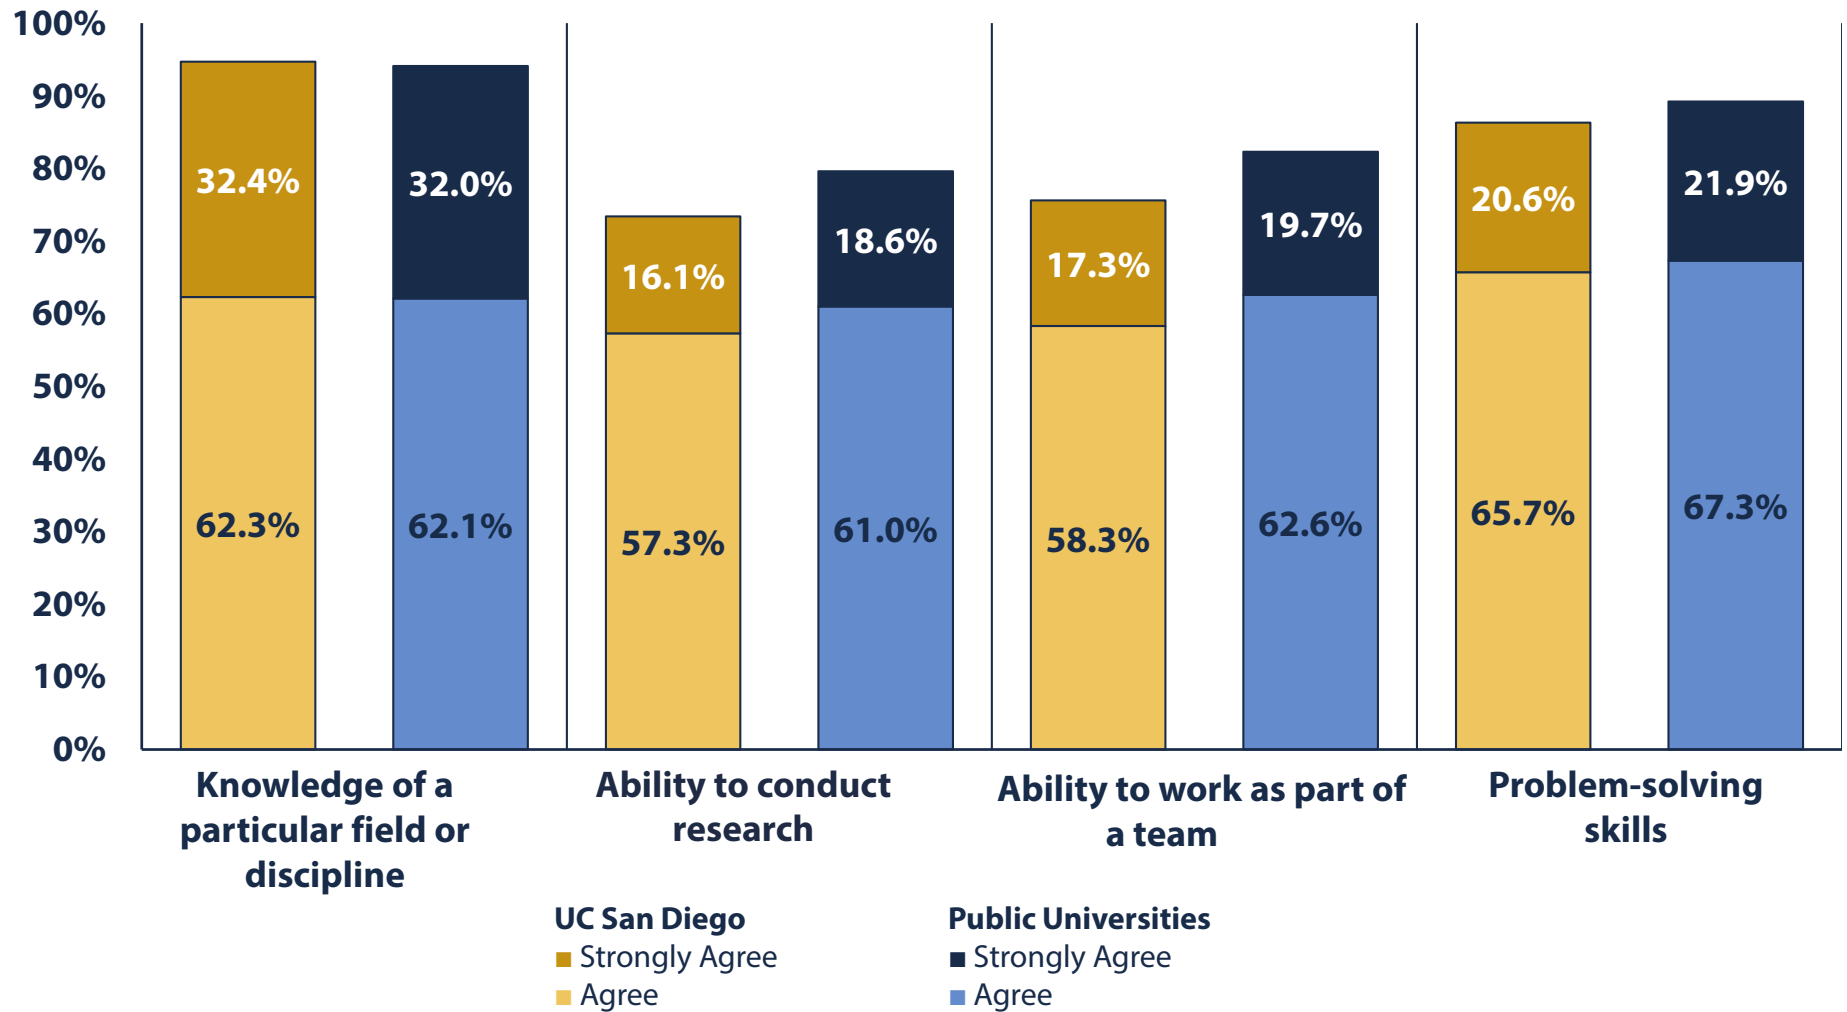

Construct Items

- Been late to class
- Skipped class
- Turned in course assignment(s) late
- Turned in course assignments that did not reflect your best work
- Fell asleep in class

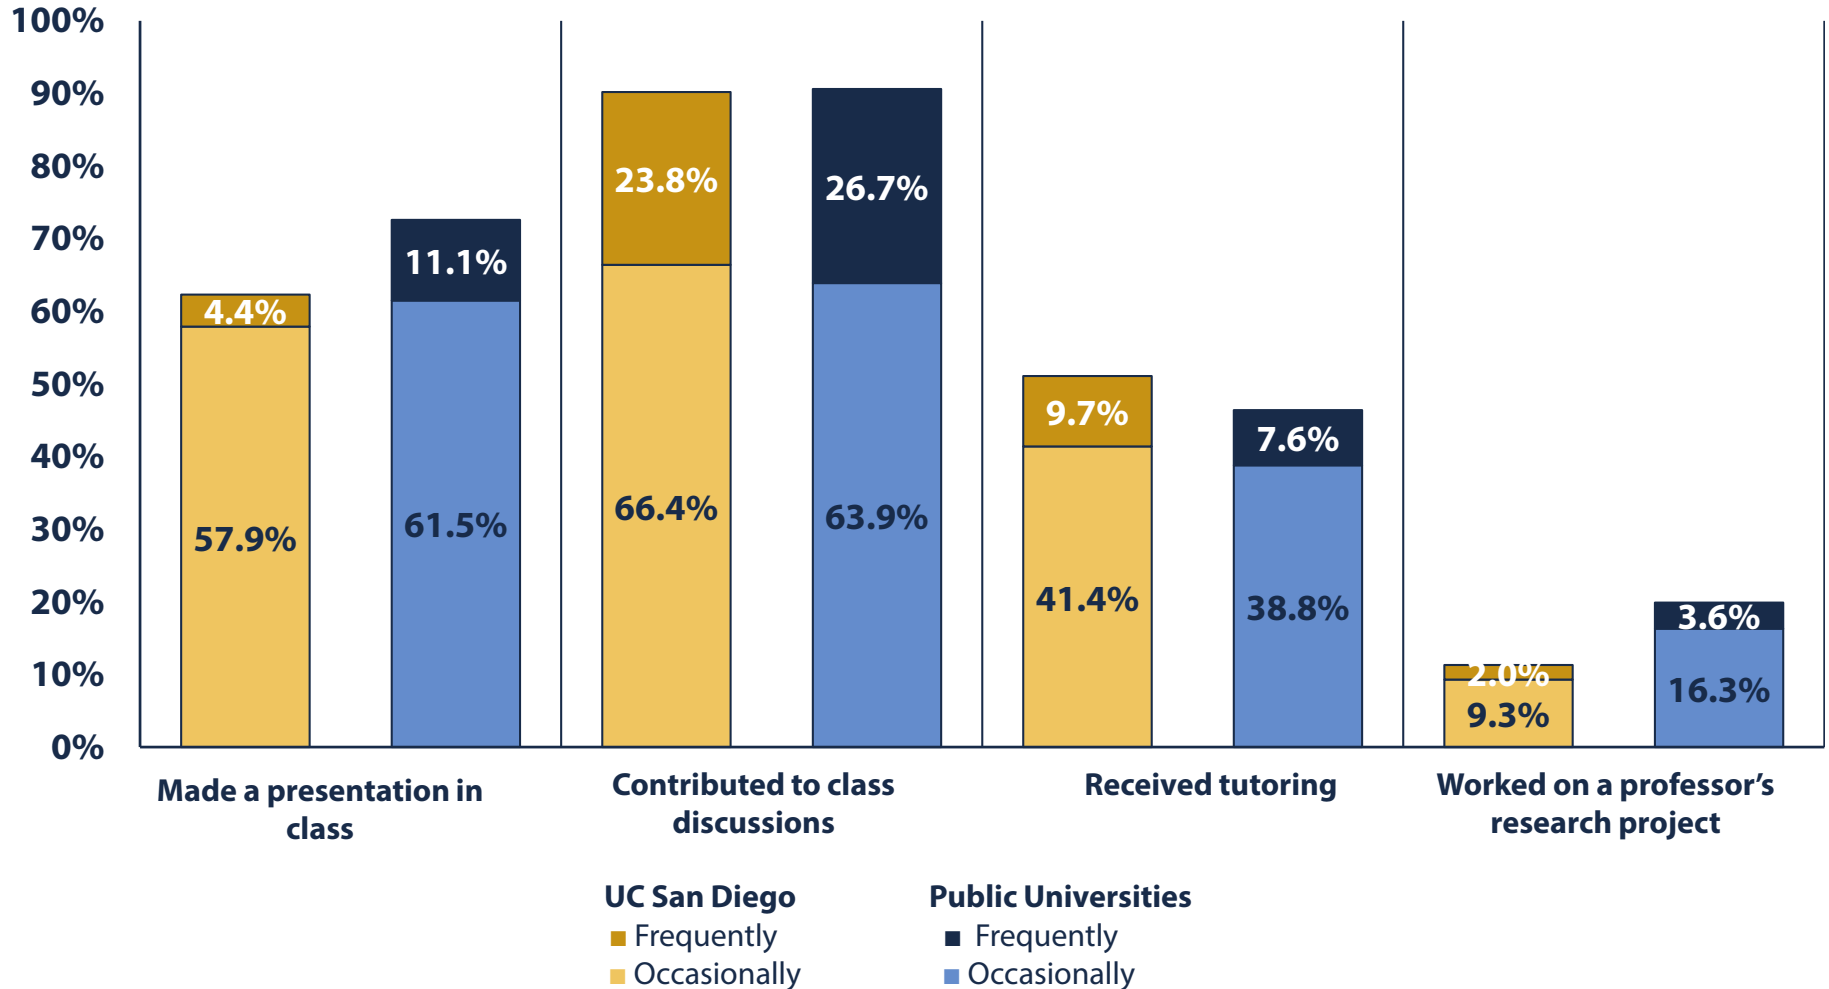

Academic Outcomes

These items illustrate students' views of their academic skills and abilities.

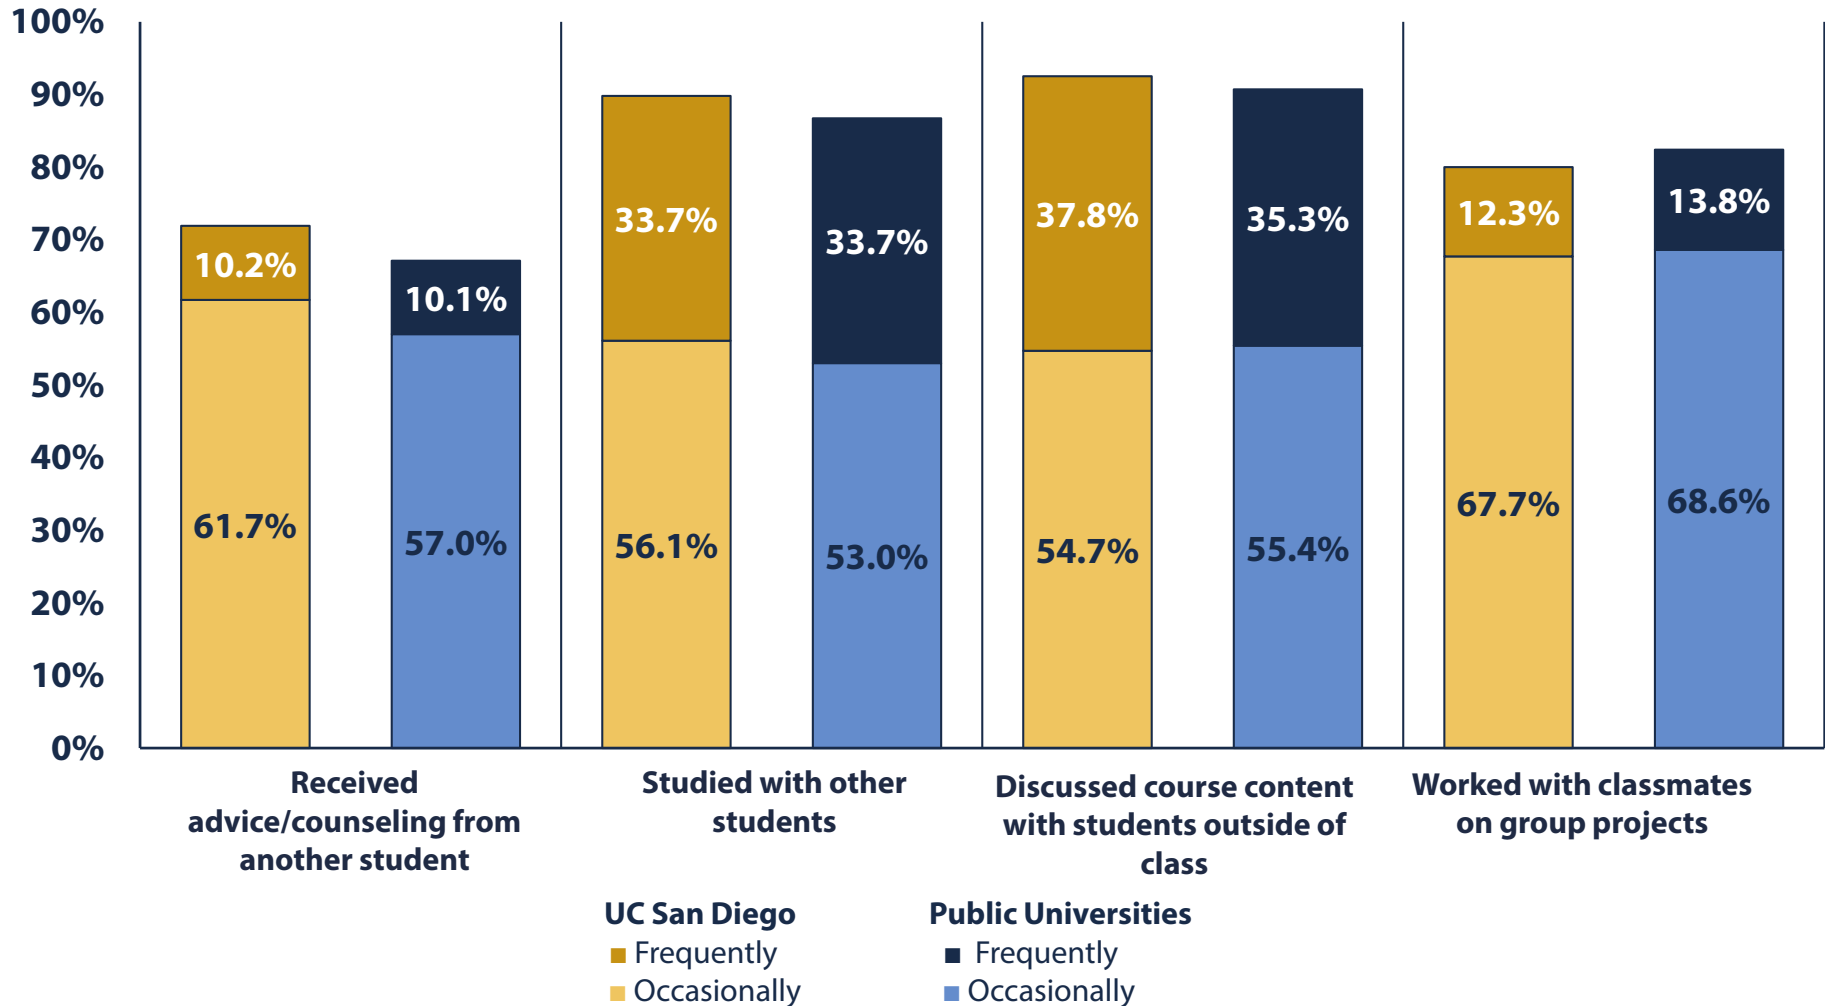

Academic Enhancement Experiences

Opportunities to apply learning inside and outside the classroom deepen students' academic involvement, allowing them to make meaningful intellectual connections and communicate their knowledge to others.

Active and Collaborative Learning

These items illustrate the extent to which students have deepened their knowledge of course material through interaction with faculty and other students.

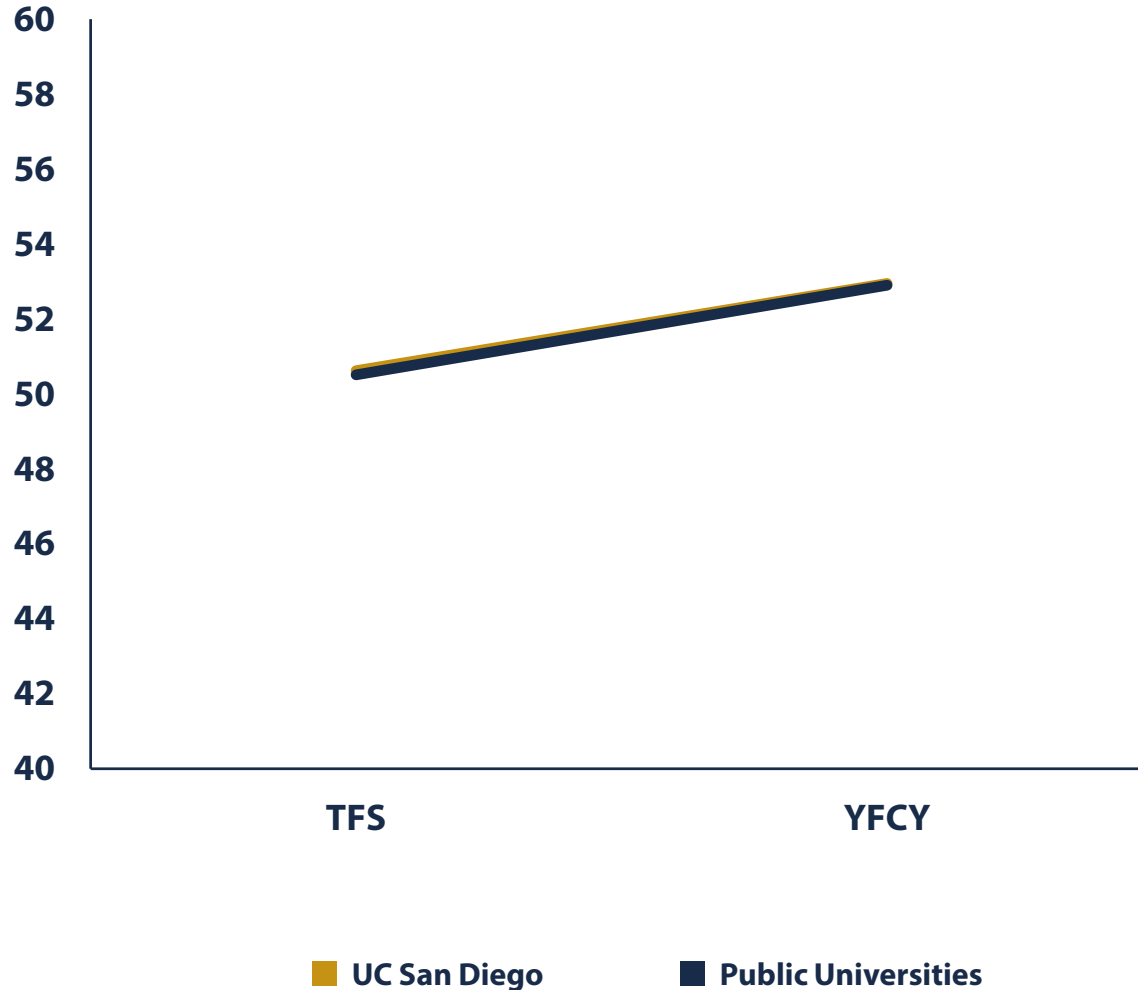

Co-Curricular Experiences

Co-curricular experiences provide opportunities for students to grow intellectually, interpersonally, and emotionally.

Social Agency

Activities and beliefs equip and empower students to create a world that is equitable, just, democratic and sustainable. *Social Agency* measures the extent to which students value political and social involvement as a personal goal.

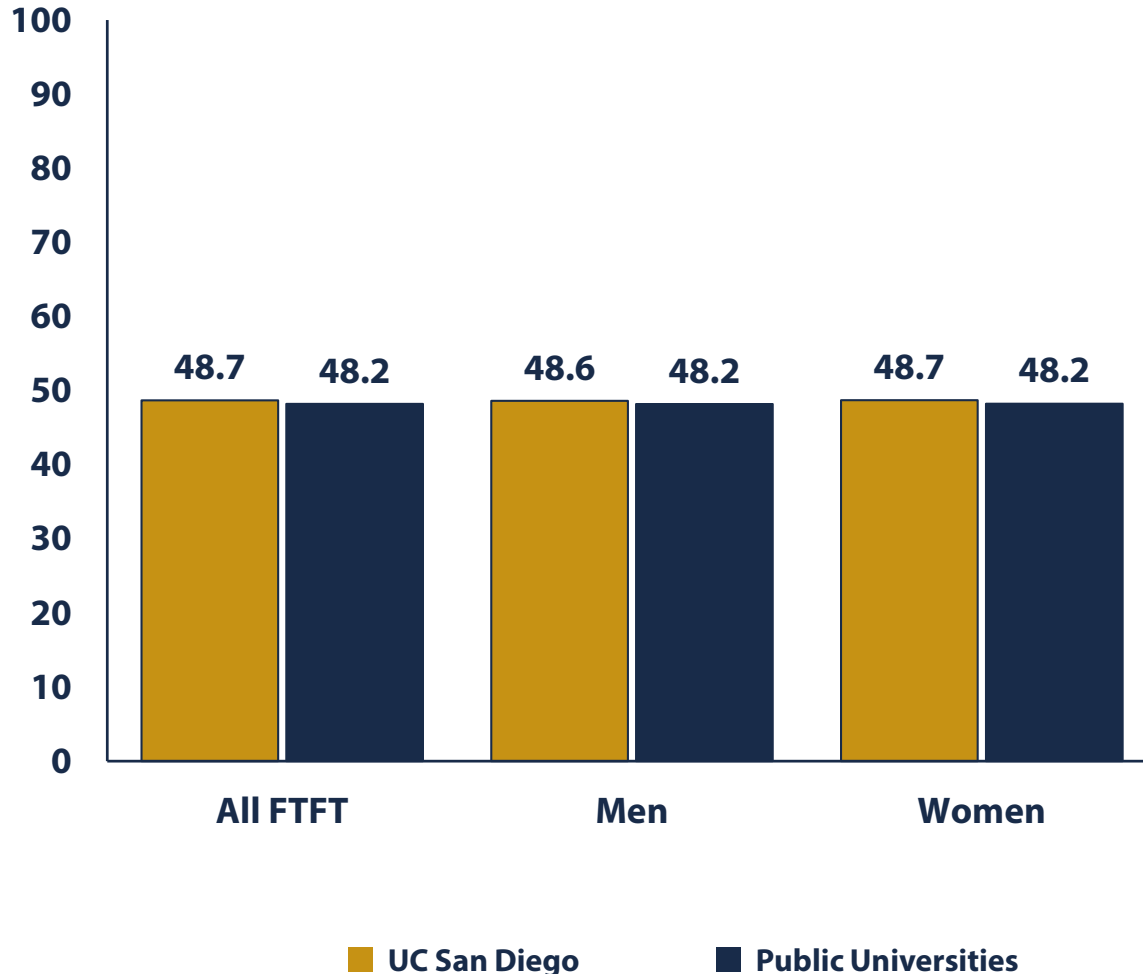

Construct Items

- Participating in a community action program
- Helping to promote racial understanding
- Becoming a community leader
- Keeping up to date with political affairs
- Influencing social values
- Helping others who are in difficulty

Civic Engagement

Engaged citizens are a critical element in the functioning of our democratic society. Civic Engagement measures the extent to which students are motivated and involved in civic, electoral, and political activities.

Construct Items

- Publicly communicated your opinion about a cause
- I am interested in seeking information about current social and political issues
- Worked on a local, state, or national political campaign
- Demonstrated for a cause (e.g., boycott, rally, protest)
- Keeping up to date with political affairs
- Influencing social values
- Helped raise money for a cause or campaign
- Performed volunteer work

Civic Awareness

The ability to evaluate, question, and develop solutions affecting their local and global communities is an important skill. *Civic Awareness* measures students' understanding of the issues facing their community, nation, and the world.

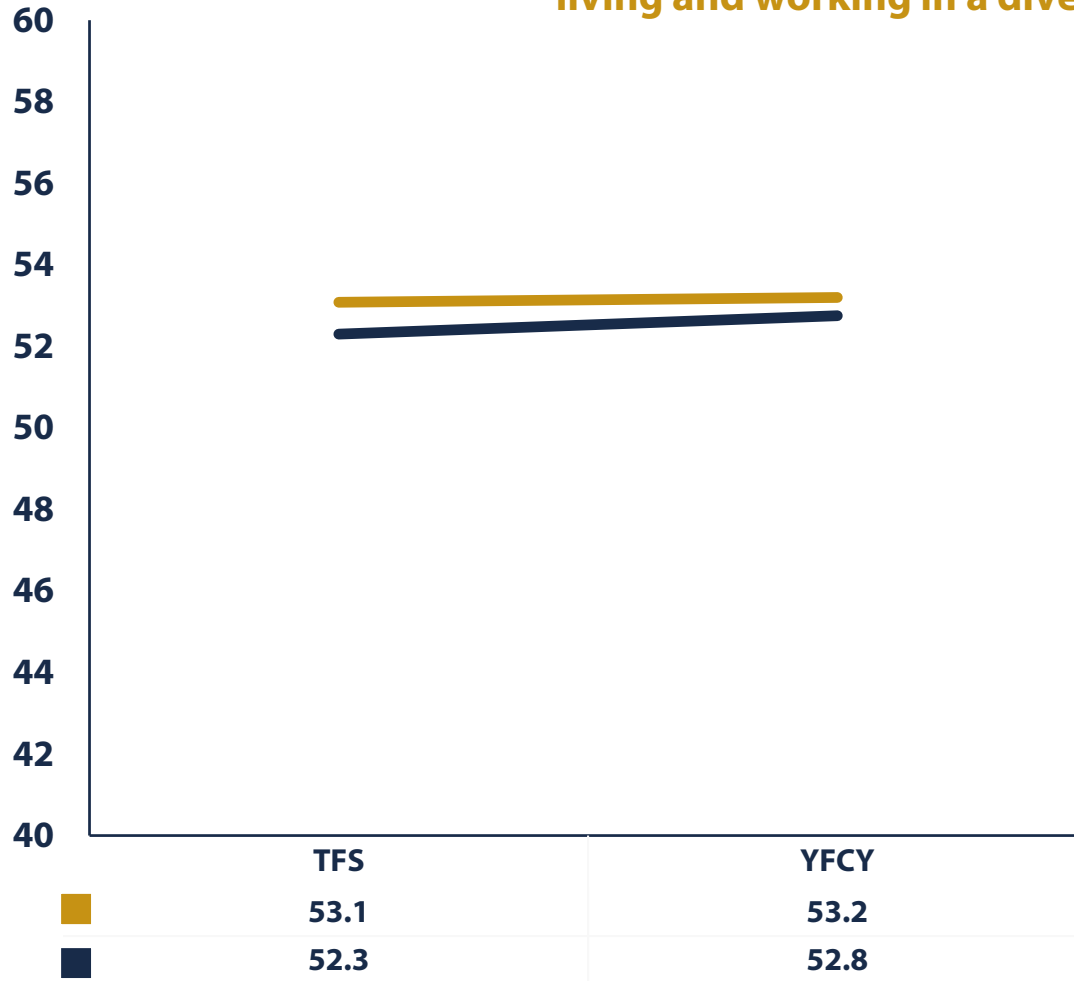

Construct Items

- Understanding of national issues
- Understanding of global issues
- Understanding of the problems facing your community

Pluralistic Orientation

Pluralistic Orientation measures skills and dispositions appropriate for living and working in a diverse society.

Construct Items

- Tolerance of others with different beliefs
- Ability to work cooperatively with diverse people
- Ability to discuss and negotiate controversial issues
- Openness to having my views challenged
- Ability to see the world from someone else's perspective

■ UC San Diego

■ Public Universities

Positive Cross-Racial Interaction

Contact with diverse students allows students to gain valuable insights about themselves and others. *Positive Cross-Racial Interaction* is a unified measure of students' level of positive interaction with diverse peers.

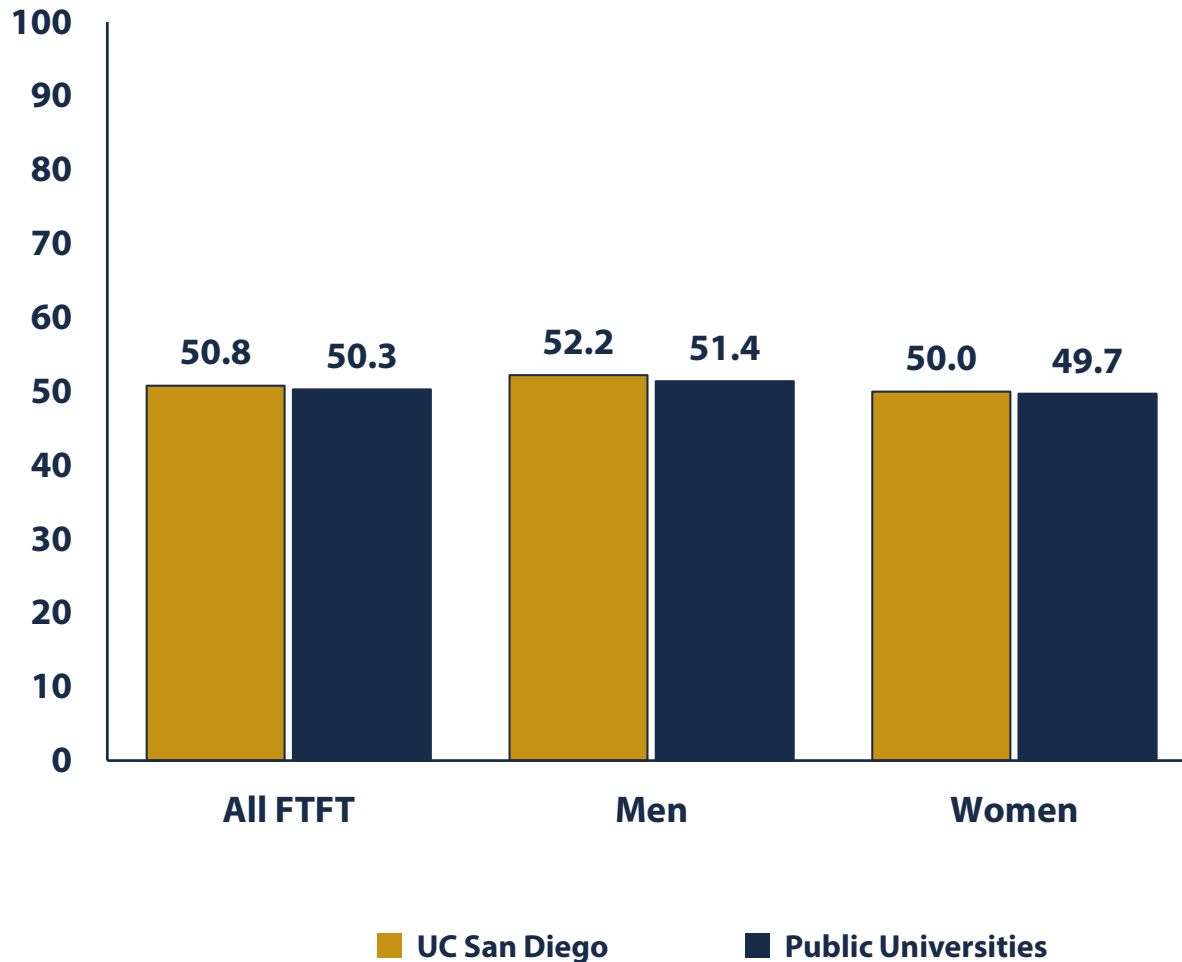

Construct Items

- Had intellectual discussions outside of class
- Shared personal feelings and problems
- Dined or shared a meal
- Had meaningful and honest discussions about race/ethnic relations outside of class
- Studied or prepared for class
- Socialized or partied

Negative Cross-Racial Interaction

Contact with diverse students allows students to gain valuable insights about themselves and others. *Negative Cross-Racial Interaction* is a unified measure of students' level of negative interaction with diverse peers.

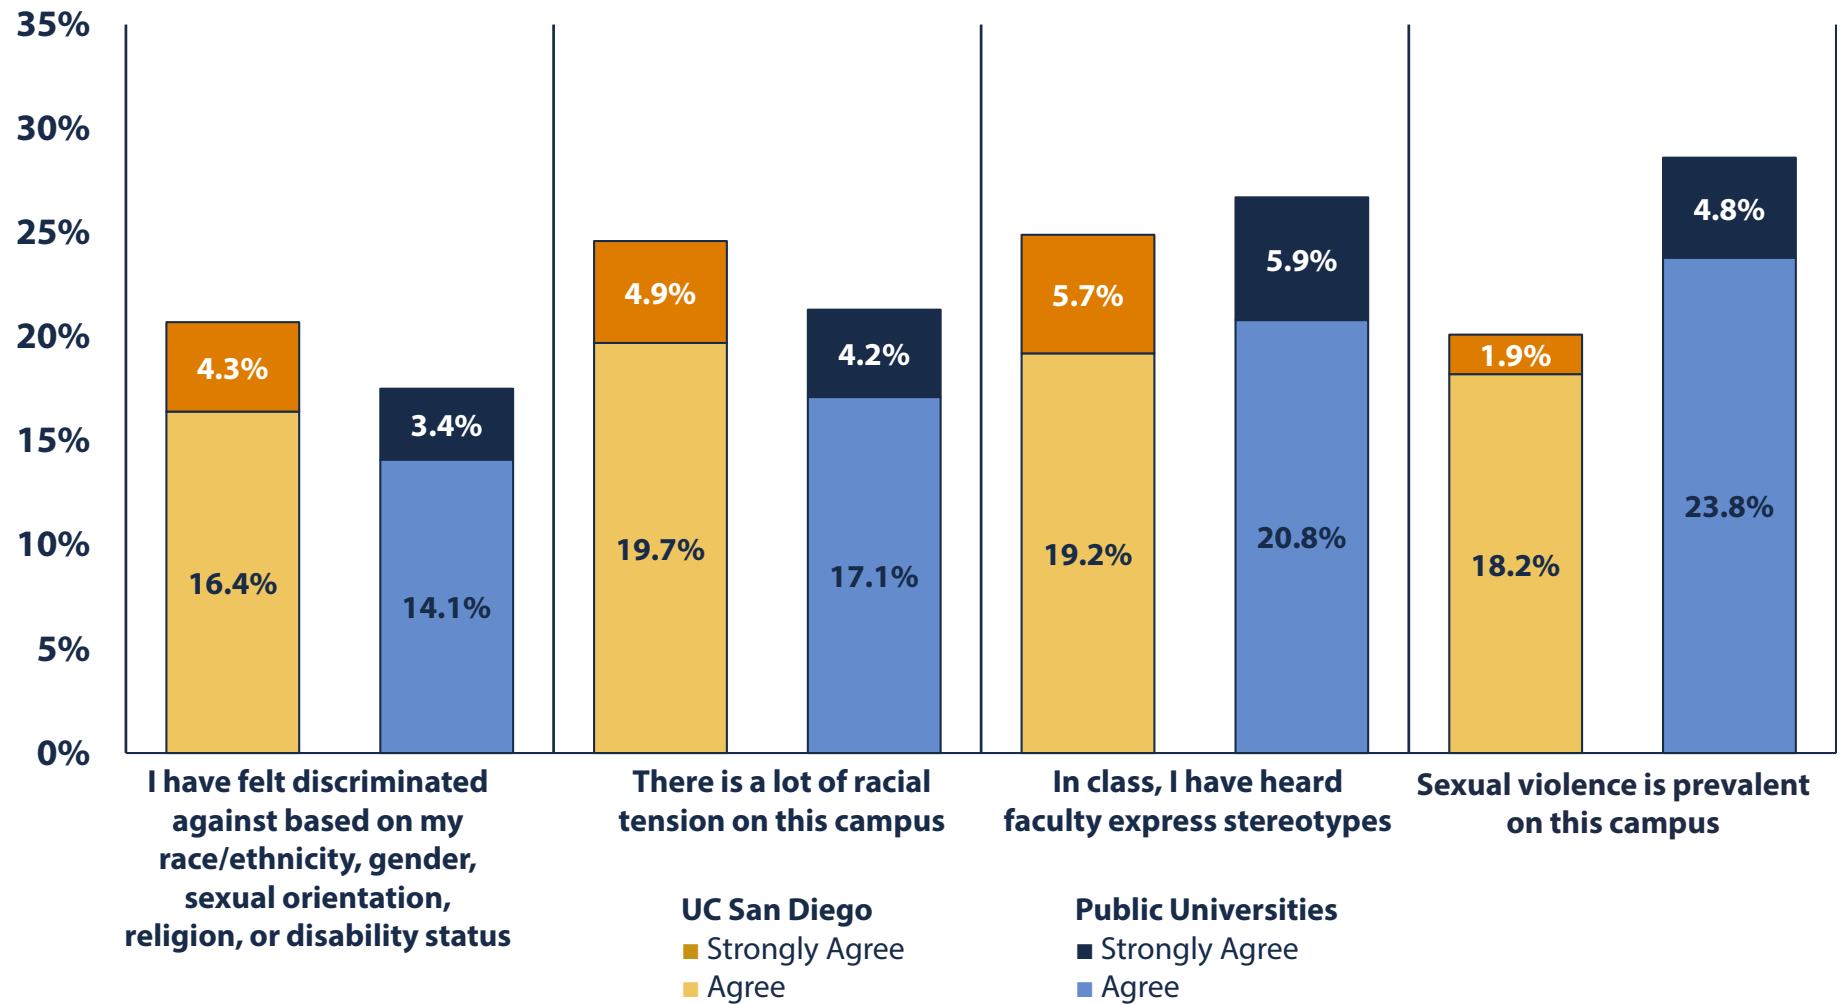

Construct Items

- Had tense, somewhat hostile interactions
- Felt insulted or threatened because of your race/ethnicity
- Had guarded, cautious interactions

Campus Climate and Diversity

A diverse and inclusive campus environment strengthens students' learning experience and prepares them to participate in an increasingly diverse society.

Satisfaction with Campus Diversity

A diverse campus – including students, faculty, and ideas – has a powerful impact on the student experience. These items gauge students' satisfaction with the diversity of faculty, student body, and beliefs.

Satisfaction

Understanding how students perceive their college experience identifies areas that are working well and sheds light on those that need improvement.

Satisfaction with Courses

Satisfaction with Courses measures the extent to which students see their coursework as relevant, useful, and applicable to their academic success and future plans.

Construct Items

- Relevance of coursework to future career plans
- Relevance of coursework to everyday life
- General education or core curriculum courses
- First-year programs (e.g., first-year seminar, learning community, linked courses, common book)

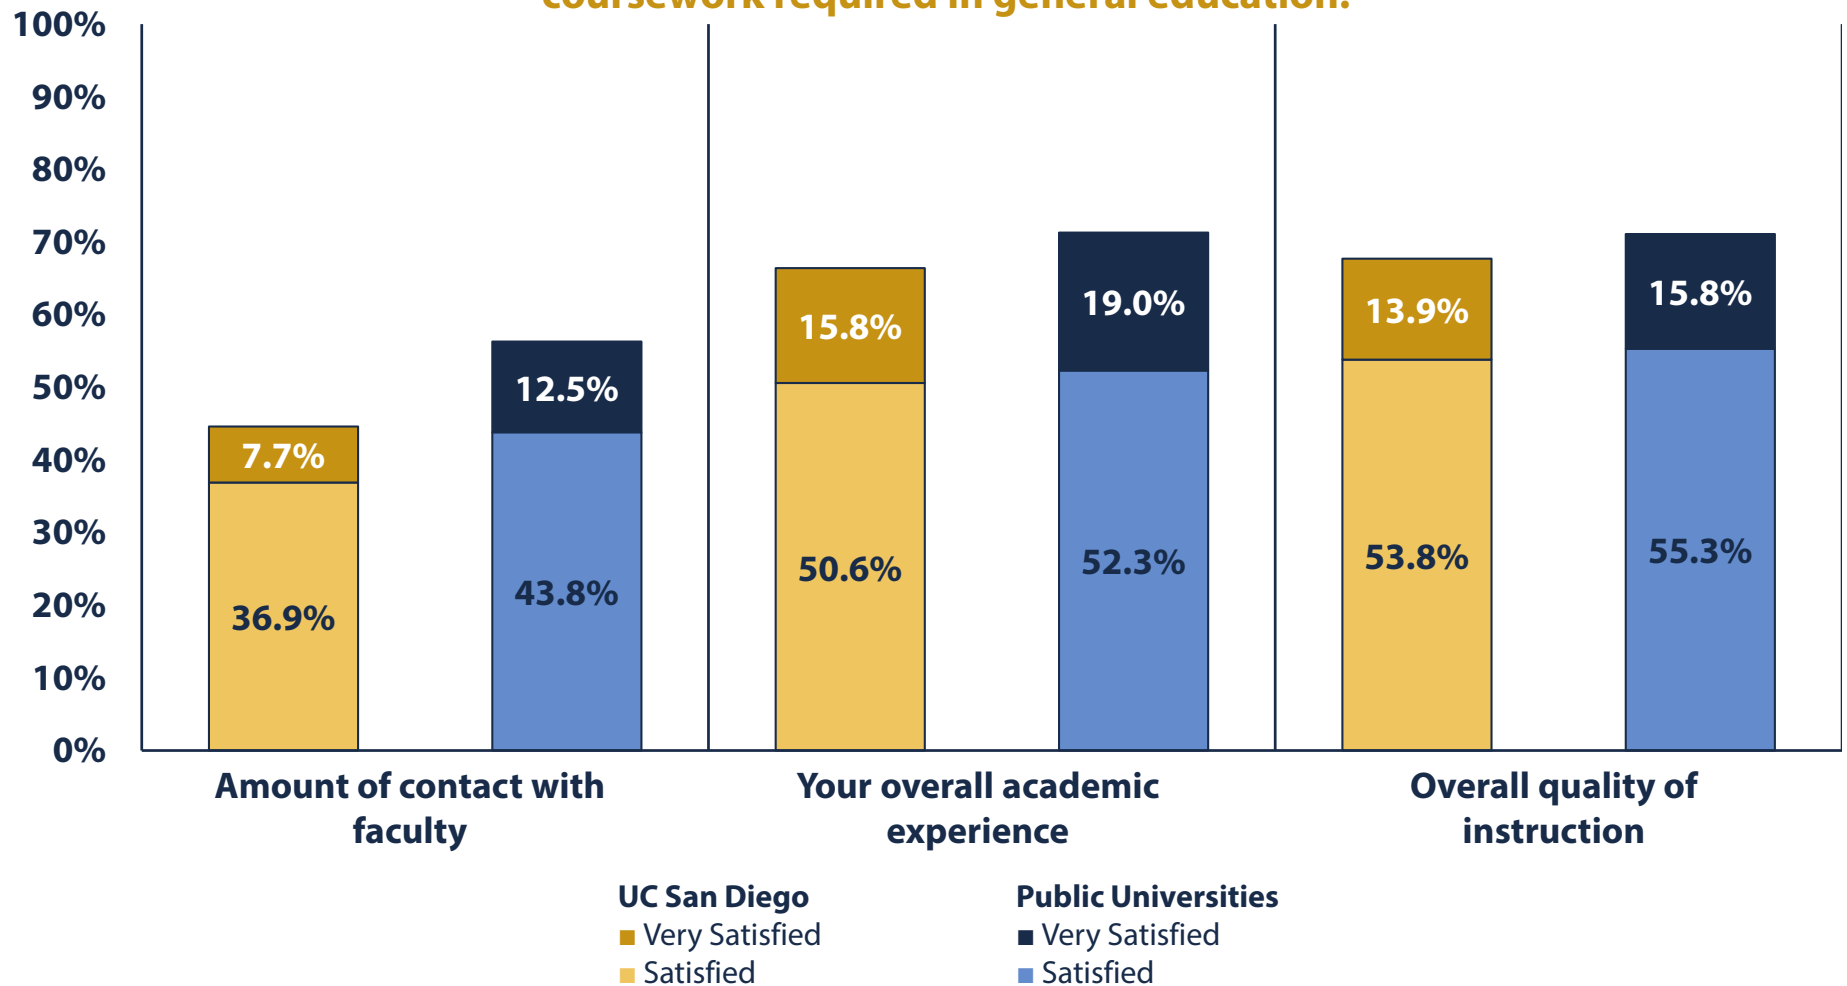

Satisfaction with Academic Support and Courses

Gauges use of and satisfaction with campus academic support structures and types of coursework required in general education.

Satisfaction with Academic Support and Courses

Gauges use of and satisfaction with campus academic support structures and types of coursework required in general education.

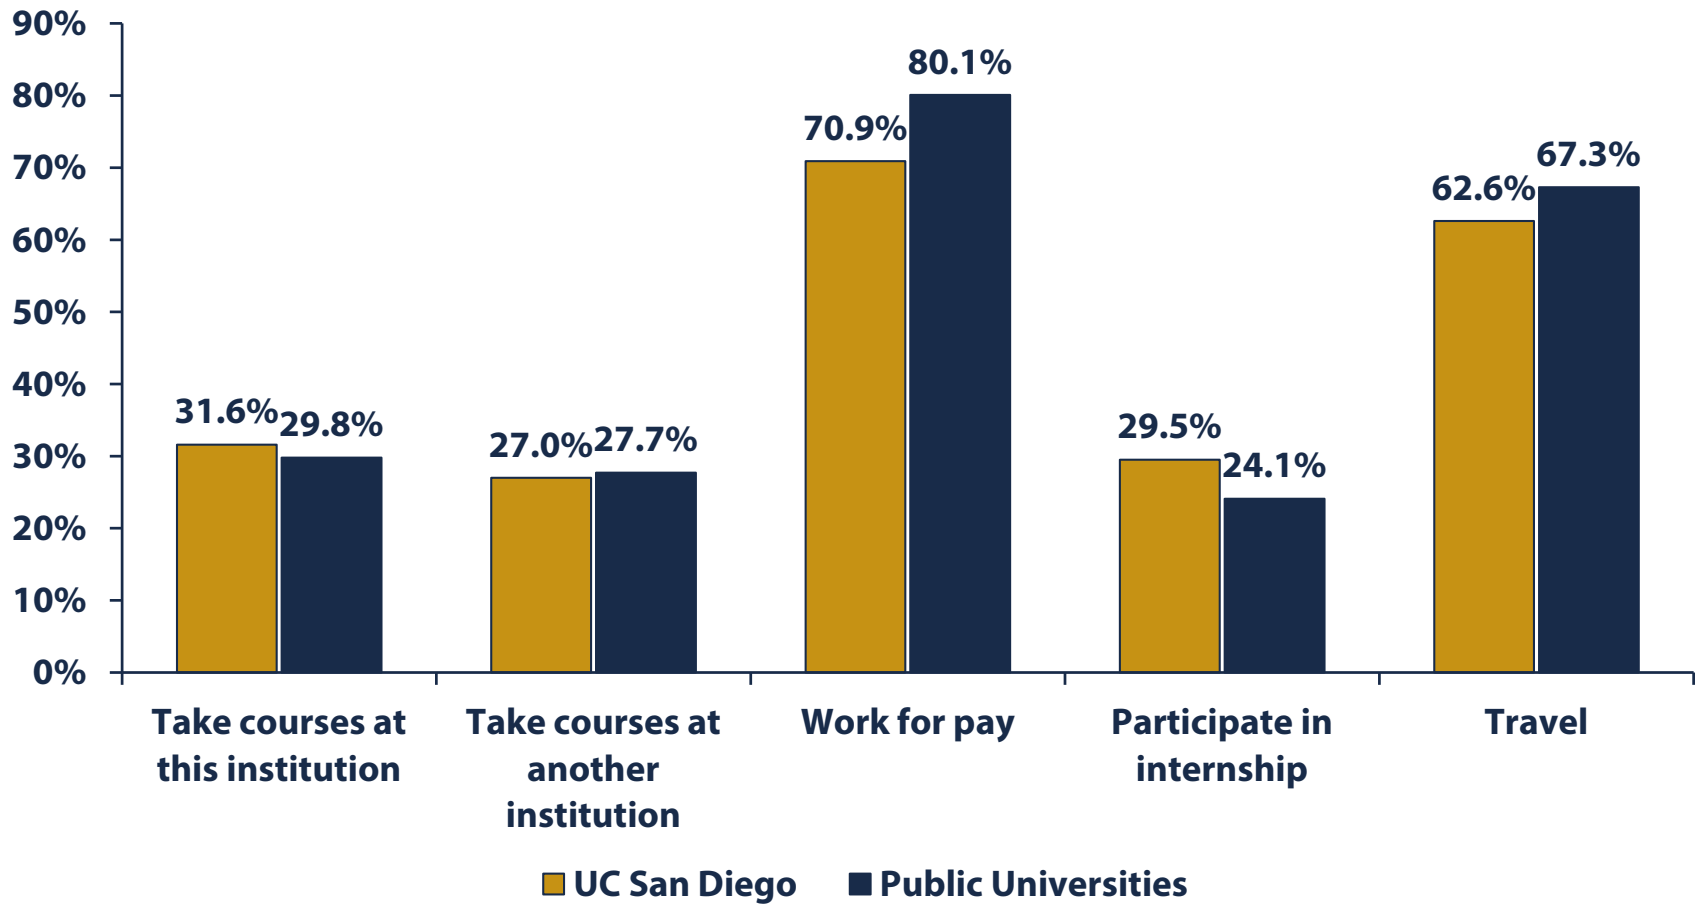

Satisfaction with Services and Community

Where students live, how they are oriented to the campus, and the support they receive during the first year are important determinants of their college experience. These items gauge use of and satisfaction with campus services and general community.

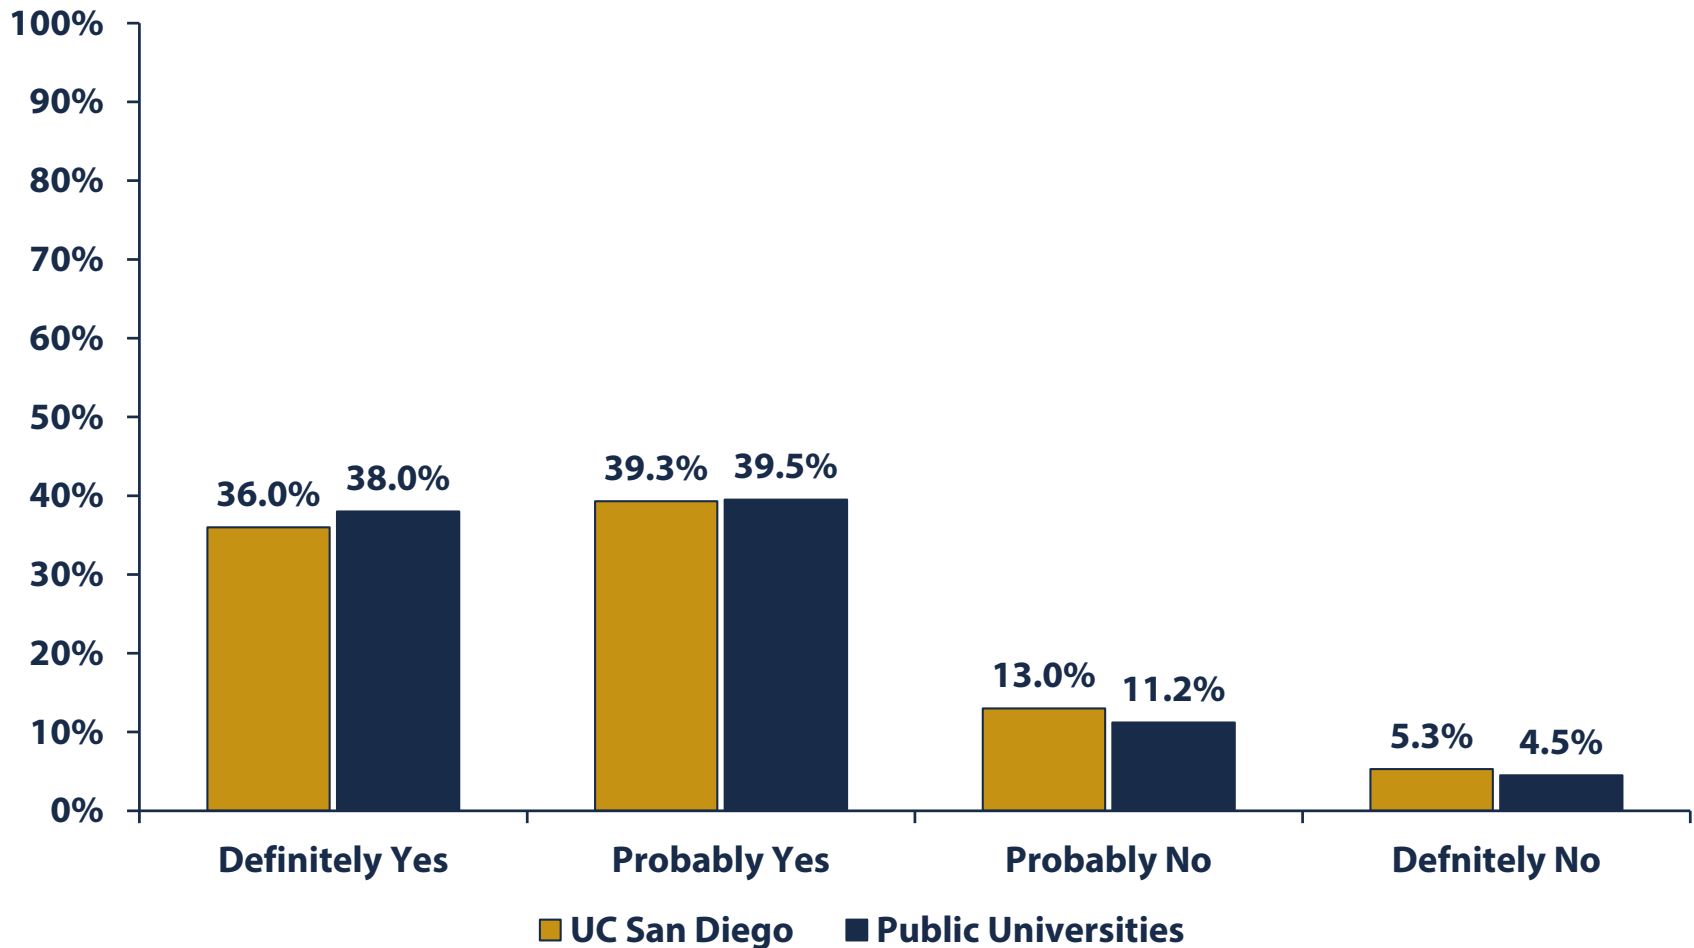

Future Plans

Do you plan to do any of the following this summer?

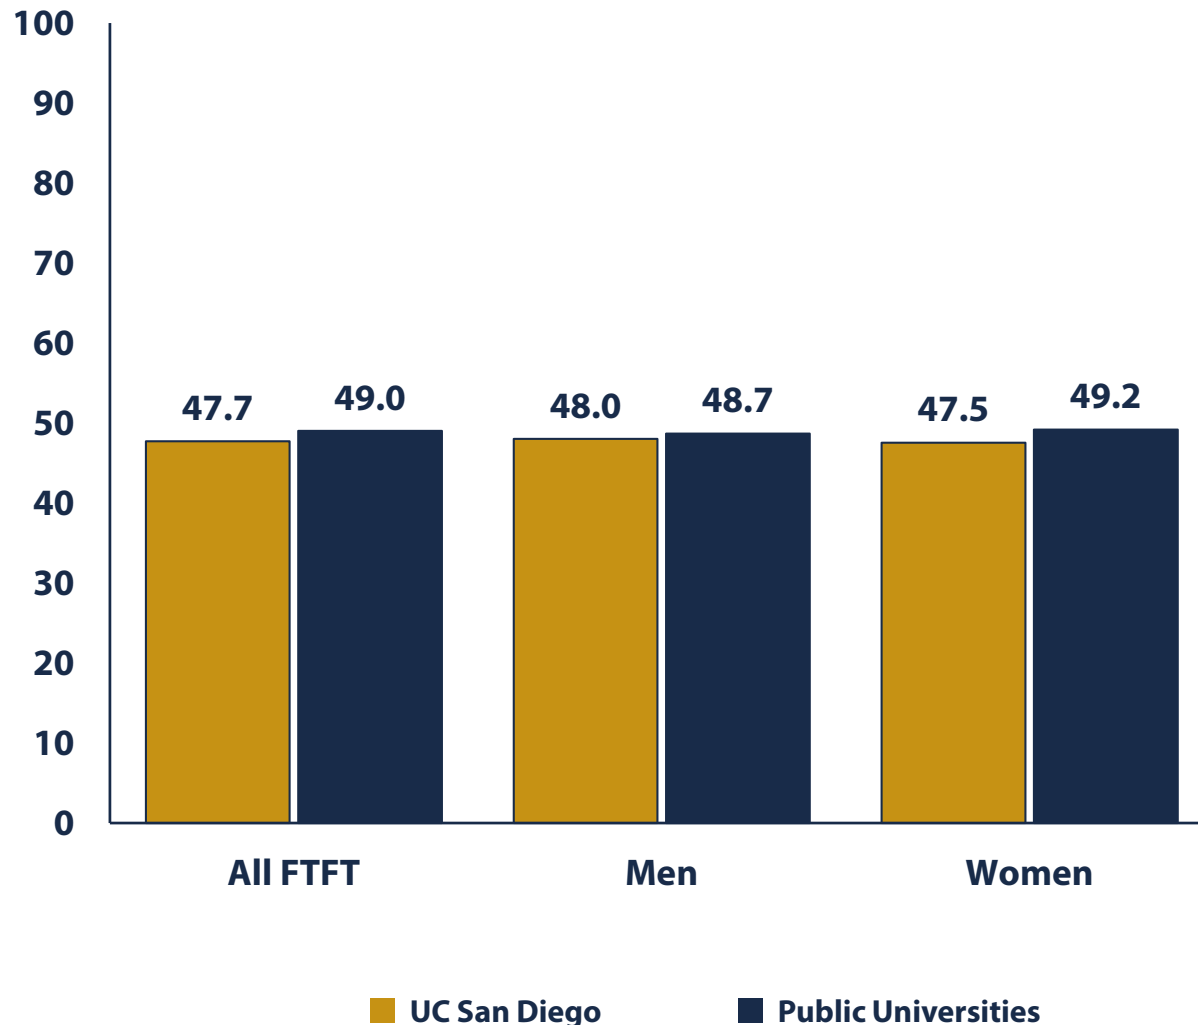

Future Plans

If you could make your college choice over, would you still choose to enroll at your current (or most recent) college?

Overall Satisfaction

Overall Satisfaction is a unified measure of students' satisfaction with the college experience.

Construct Items

- Overall college experience
- If you could make your college choice over, would you still choose to enroll at your current (or most recent) college?
- Overall academic experience
- Overall quality of instruction

The more you get to know your students,
the better you can understand their needs.
