While graduation rates are considered high for both first and second generation college students, graduation rates tend to be higher for second generation college students.

Second generation college student: One or both parents graduated from a four year institution of higher education or a two year community college.

^{*} First generation college student: Neither parent graduated from a four year institution of higher education or a two year community college.

• 2014	952	95%					

^{*} Note: Students are to be considered to have received a grant or loan if they received it for the period used for determining the cohort - fall term. The Higher Education Opportunity Act (HEOA) (Sec. 488(a)(3)) requires that graduation rates must be disaggregated by these categories and disclosed to the public.

UC San Diego

Retention and Graduation Rates is an annual publication of the Office of Student Research & Information,
Academic Affairs, 858-534-2382.
